Re: Draft Air Permit No. 0330045-032-AC  
Crist Electric Generating Plant  
Crist Unit 6 ESP Project

Dear Mr. Vick:

On October 20, 2010, you submitted an application to upgrade the electrostatic precipitator (ESP) on the existing Unit 6 at the Crist Electric Generating Plant. The proposed project consists of the addition of two rows of collecting electrodes, replacement of high voltage discharge electrodes, upgrades of the power supply and computer control system, and the external strengthening of the shell. The project is not subject to prevention of significant deterioration preconstruction review because it will not increase emissions nor change the capacity. This work will be conducted at the existing Crist Electric Generating Plant, which is located in Escambia County at 11999 Pate Street in Pensacola, Florida. Enclosed are the following documents: Written Notice of Intent to Issue Air Permit; Public Notice of Intent to Issue Air Permit; Technical Evaluation and Preliminary Determination; and Draft Permit with Appendices.

The Public Notice of Intent to Issue Air Permit is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project. If you have any questions, please contact the Project Engineer, Heidi Coggins, at 850/921-9528.

Sincerely,

Trina Vielhauer, Chief  
Bureau of Air Regulation
