ENVIRONMENTAL PROTECTION COMMISSION OF  
HILLSBOROUGH COUNTY, as Delegated by

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION

NOTICE OF PERMIT ISSUANCE

CERTIFIED MAIL

Santo Lazzara  
Plant Engineering Manager  
Yuengling Brewing Company of Tampa  
11111 North 30<sup>th</sup> Street  
Tampa, FL 33612

File No.: 0570006-022-AO  
County: Hillsborough

Enclosed is Permit Number 0570006-022-AO to operate a malt beverage brewing and packaging operation at a malt beverage brewery issued pursuant to Section 403.087, Florida Statutes.

The EPC will issue the final permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Section 120.569 and 120.57 F.S. before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Legal Department of the EPC at 3629 Queen Palm Dr., Tampa, Florida 33619, Phone 813-627-2600, Fax 813-627-2660. Petitions filed by the permit applicant or any of the parties listed below must be filed within 14 (fourteen) days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S. must be filed within 14 (fourteen) days of receipt of this permit. Under Section 120.60(3), however, any person who asked the EPC for notice of agency action may file a petition within 14 (fourteen) days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in

additional information.

Any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes, by filing a notice of appeal under rule 9.110 of the Florida rules of Appellate Procedure with the EPC's Legal Office at 3629 Queen Palm Dr., Tampa, Florida 33619 and with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

#### PERMIT/CERTIFICATION

Permit No.: 0570006-022-AO  
County: Hillsborough  
Expiration Date: December 20, 2018  
Project: Malt Beverage Brewing

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rules 62-204, 62-210, 62-212, 62-296, 62-297, and 62-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the EPC and made a part of hereof and specifically described as follows:

This permit authorizes operation of a malt beverage brewing and packaging operation at a malt beverage brewery. The process begins by receiving various types of grain by railcar, which is bottom unloaded into a below grade pit. From the pit, the grain is pneumatically transferred to one of nine storage silos. When needed in production, the grain is pneumatically transferred from the silos to a transfer filter/receiver. Depending on the type of grain, the grain is either pneumatically transferred directly to the new brewhouse scale hopper or to a grinding mill for processing. If the grain is directed to the grinding mill, the milled grain is transferred via bucket elevator to the new brewhouse scale hopper. The grain from the new scale hopper is pneumatically transferred into either the cereal cooker or the mash vessel for use in the brewing process.

Particulate matter (PM) emissions from the transfer of grain to the silos (EU No. 002) are controlled by a 980 DSCFM Buhler Inc., RPPR 24/6, Filter Receiver. PM emissions from the grain storage silos (EU No. 016) are controlled by a 300 DSCFM Buhler Inc., RPBV Model 9/3, Bin Vent Filter. PM emissions from the transfer of grain from the silos to the scale hopper or grinding mill (EU No. 003) are controlled by a 663 DSCFM Buhler Inc., RPPR 18/6, Transfer Filter Receiver with bin vent filter. In addition, PM emissions from the grain milling operation and bucket elevator (EU No. 004) are controlled by a 1,000 DSCFM Buhler Inc., RPPR 18/6, Dust Collector.

The brewing process begins at the mash vessel. Grain from the grain mill is gravity fed into a mash vessel, mixed with water, and heated. Depending on the type of grain, it may also be mixed with water and processed in the cereal cooker prior to brewing. After the grains are heated in the mash vessel, the liquid is referred to as wort. From the mash tub, the wort is passed through a mash filter to separate the liquid from the spent grains and the grains are pumped to a
