CERTIFIED MAIL

In the Matter of an
Application for Permit by:

File No.: 0570080-034-AC
County: Hillsborough

Timothy J. Aydt
Deputy Assistant Secretary
Marathon Petroleum Company, LLC
539 S Main St.
Findlay, OH 45840-3229

INTENT TO ISSUE

The Environmental Protection Commission of Hillsborough County (EPC), as delegated by the Florida Department of Environmental Protection (DEP) gives notice of its intent to issue a permit (copy attached) for the proposed project as detailed in the application specified above, for the reasons stated below.

On April 30, 2014, Marathon Petroleum Company, LLC, Tampa Light Products Terminal, requested to replace the roof of Tank No. 55-10. After the replacement of the roof, Tank No. 55-10 will have a bolted internal floating roof with a mechanical-shoe primary seal and a shoe-mounted secondary seal.

The EPC has permitting jurisdiction under Chapter 403 Florida Statutes (F.S.) and Florida Administrative Code (F.A.C.) Chapters 62-4, 62-210 and 62-212. The project is not exempt from permitting procedures. The EPC has determined that an air pollution construction permit is required to commence or continue operations at the described facility.

The EPC intends to issue this permit based on the belief that reasonable assurances have been provided to indicate that operation of the source will comply with the appropriate provisions of Florida Administrative Code (F.A.C.) Chapters 62-204 through 62-297 and 62-4.

Pursuant to Section 403.815 and Rule 62-110.106(7)(a)1., F.A.C, you (the applicant) are required to publish at your own expense the enclosed Notice of Intent to Issue Permit. The notice shall be published one time only within 30 days of receipt of this Intent to Issue, in the legal advertisement section of a newspaper of general circulation in the area affected. For the purpose

An agency with values of environmental stewardship, integrity, honesty and a culture of fairness and cooperation

statement of the dates showing the duration of the variance or waiver requested.

The Department will grant a variance or waiver when the petition demonstrates both that the application of the rule would create a substantial hardship or violate principles of fairness, as each of the those terms is defined in Section 120.542(2), F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of United States Environmental Protection Agency and by any person under the Clean Air Act unless and until the Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

Any person listed below may request to obtain additional information, a copy of the application (except for information entitled to confidential treatment pursuant to Section 403.111, F.S.), all relevant supporting materials, and all other materials available to the EPC that are relevant to the permit decision. Interested persons may contact Diana M. Lee, P.E., at the above address or call (813) 627-2600, for additional information.

Any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes, by filing a notice of appeal under rule 9.110 of the Florida rules of Appellate Procedure with the EPC's Legal Office at 3629 Queen Palm Drive, Tampa, Florida 33619 and with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Re: Hillsborough County - AP

Dear Mr. Ayd:

Enclosed is Permit Number 0570080-034-AC for the Tampa Light Products Terminal authorizing the replacement of the roof of Tank No. 55-10. After the replacement of the roof, Tank No. 55-10 will have a bolted internal floating roof with a mechanical-shoe primary seal and a shoe-mounted secondary seal, issued pursuant to Section 403.087, Florida Statutes.

Any party to this order (permit) has the right to seek judicial review of the permit pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the EPC in the Legal Department at 3629 Queen Palm Drive, Tampa, FL 33619; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date this Notice is filed with the clerk of the EPC.

PERMIT/CERTIFICATION

Permit No.: 0570080-034-AC
County: Hillsborough
Expiration Date: August 21, 2015
Project: Tank No. 55-10 Roof Replacement

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rules 62-204, 62-210, 62-212, 62-296, 62-297, and 62-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents, attached hereto or on file with the EPC and made a part hereof and specifically described as follows:

This project authorizes the replacement of the roof of Tank No. 55-10, which currently has a doomed, external floating roof tank with a mechanical-shoe primary seal. After the replacement of the roof, Tank No. 55-10 will have a bolted internal floating roof with a mechanical-shoe primary seal and a shoe-mounted secondary seal.

This facility is a bulk terminal that handles and stores petroleum products and petroleum product additives. Gasoline, ethanol, distillates, additives, and asphalt products are received via barge or tanker and stored in above ground storage tanks. All of the products are subsequently loaded into trucks for shipment offsite or can also be delivered into the pipeline owned by Central Florida Pipeline. The operations at this facility include 29 permitted storage tanks; an asphalt heater; a barge loading operation; and two truck loading racks. Each loading rack consists of five loading bays and each loading bay has 5 to 6 loading arms depending on the available arms in service.

The truck loading racks are controlled by two Vapor Recovery Units (VRUs), Jordan Technologies Units, Model Nos. JOR JT4-11089-2X7240, and a R. A. Nichols Vapor Combustor Unit (RANE VCU), Model No. 8E27DB, Serial No. E24/B14. Each VRU contains two activated carbon beds and regeneration equipment. The RANE VCU is the backup control device for the VRUs in case of equipment malfunction or maintenance activities.

The permitted storage tanks include the gasoline floating roof group tanks, diesel fixed roof group tanks, additive group tanks, and a transmix tank. The following table lists the gasoline floating roof group storage tanks at Marathon Petroleum Company.
