DEPARTMENT OF ENVIRONMENTAL PROTECTION

NOTICE OF PERMIT ISSUANCE

CERTIFIED MAIL

Wayne Parker
General Manager
International Paper Company
6706 North 53rd Street
Tampa, FL 33610

File No.: 0571151-013-AO
County: Hillsborough

Enclosed is Permit Number 0571151-013-AO to operate a corrugated box manufacturing facility, issued pursuant to Section 403.087, Florida Statutes. Please read this new permit thoroughly as there are changes from the previous permit.

The EPC will issue the final permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Section 120.569 and 120.57 F.S. before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Legal Department of the EPC at 3629 Queen Palm Dr, Tampa, Florida 33619, Phone 813-627-2600, Fax 813-627-2602. Petitions filed by the permit applicant or any of the parties listed below must be filed within 14 (fourteen) days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S. must be filed within 14 (fourteen) days of receipt of this permit. Under Section 120.60(3), however, any person who asked the EPC for notice of agency action may file a petition within 14 (fourteen) days of receipt of that notice.

A petitioner shall mail a copy of the petition to the applicant at the address indicated above,

An agency with values of environmental stewardship, integrity, honesty and a culture of fairness and cooperation

Interested persons may contact Diana M. Lee, P.E., at the above address or call (813) 627-2600, for additional information.

Any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes, by filing a notice of appeal under rule 9.110 of the Florida rules of Appellate Procedure with the EPC's Legal Office at 3629 Queen Palm Dr, Tampa, Florida 33619 and with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Tampa, Florida.

Sincerely,

Richard D. Garrity, Ph.D.
Executive Director

PERMIT/CERTIFICATION

Permit No: 0571151-013-AO
County: Hillsborough
Expiration Date: April 17, 2019
Project: Corrugated Cardboard Box
Manufacturing Facility

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rules 62-204, 62-210, 62-212, 62-296, 62-297, and 62-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the EPC and made a part of hereof and specifically described as follows:

This permit authorizes operation of a corrugated cardboard box manufacturing process. The operation consists of the corrugation of paper medium and the assembly of corrugated boards. Once assembled, the corrugated board is then cut, scored, printed, and folded into customer-specific box sizes. The following is a detailed description of this process.

Corrugator/Finishing Area

The manufacturing process consists of continuously gluing a fluted paper medium between two layers of paper liner to create the corrugated board. The facility operates one corrugating machine, Corrugator No. 0093. The corrugated board is fully constructed during a single inclusive operation. A preheated and moistened paper medium passes through a flute former and an adhesive is applied to the fluted tips on one surface of the fluted paper. The fluted surface is immediately brought into contact with a liner sheet to produce a single-face sheet. The single-face web is then brought into contact with a second glue roller and combined with a second liner sheet to form a double-face sheet of corrugated board.

The corrugator can apply pre-printed paper to the corrugated board surfaces. In addition, the corrugated board can be prepared with or without waterproofing materials. Once formed, the corrugated board passes through a heating section to set the bond. The board is then cooled and trimmed to the needed size. The adhesive used in the process of forming the corrugated board is made onsite by mixing resin, starch, and water. The starch is delivered by truck and stored in a 123.8 ton capacity silo which vents indoors.

The corrugating process, the adhesive preparation, and the corrugated board drying require

SPECIFIC CONDITIONS:

renewal of the permit using the current version of the permit renewal application form. A renewal application shall be timely and sufficient. If the application is submitted prior to sixty days before the expiration of the permit, it will be considered timely and sufficient. If the renewal application is submitted at a later date, it will not be considered timely and sufficient unless it is submitted and made complete prior to the expiration of the operation permit. When the application for renewal is timely and sufficient, the existing permit shall remain in effect until the renewal application has been finally acted upon by the EPC or, if there is court review of the final agency action, until a later date is required by Section 120.60, Florida Statutes.
