Tampa, FL 33605

INTENT TO ISSUE

The Environmental Protection Commission of Hillsborough County (EPC), as delegated by the Florida Department of Environmental Protection (DEP) gives notice of its intent to issue a permit (copy attached) for the proposed project as detailed in the application specified above, for the reasons stated below.

The applicant, Tampa Tank, Inc, applied on April 1, 2015 to the EPC for the construction of a structural steel fabrication facility that will prepare metal surfaces using abrasive blasting and then apply surface coatings to metal parts and products. Emissions will be controlled by dust collectors, enclosures and operational limitations. The facility, which is a Synthetic Non-Title V Source, will be located at 12781 US Hwy 41 South, Gibsonton, FL.

The EPC has permitting jurisdiction under Chapter 403 Florida Statutes (F.S.) and Florida Administrative Code (F.A.C.) Chapters 62-4 and 62-210. The project is not exempt from permitting procedures. The EPC has determined that an air pollution construction permit is required to commence or continue operations at the described facility.

The EPC intends to issue this permit based on the belief that reasonable assurances have been provided to indicate that operation of the source will comply with the appropriate provisions of Florida Administrative Code (F.A.C.) Chapters 62-204 through 62-297 and 62-4.

Pursuant to Section 403.815 and 403.0872, F.S. and Rules 62-103.150 and 62-210.350(3), you (the applicant) are required to publish at your own expense the enclosed Notice of Intent to Issue Permit. The notice shall be published one time as soon as possible, in the legal advertisement section of a newspaper of general circulation in the area affected. For the purpose of this rule, "publication in a newspaper of general circulation in the area affected" means publication in a newspaper meeting the requirements of Sections 50.011 and 50.031, F.S., in the county where

the application of the rule would create a substantial hardship or violate principles of fairness, as each of the those terms is defined in Section 120.542(2), F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of United States Environmental Protection Agency and by any person under the Clean Air Act unless and until the Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

Any person listed below may request to obtain additional information, a copy of the application (except for information entitled to confidential treatment pursuant to Section 403.111, F.S.), all relevant supporting materials, and all other materials available to the EPC that are relevant to the permit decision. Interested persons may contact Diana M. Lee, P.E., at the above address or call (813) 627-2600, for additional information.

Any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes, by filing a notice of appeal under rule 9.110 of the Florida rules of Appellate Procedure with the EPC's Legal Office at 3629 Queen Palm Drive, Tampa, Florida 33619 and with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Dear Mr. DuMelle:

Re: Hillsborough County - AP

Enclosed is Draft Permit Number 0571450-001-AC for the construction of a structural steel fabrication facility that will prepare metal surfaces using abrasive blasting and then apply surface coatings to metal parts and products, issued pursuant to Section 403.087, Florida Statutes.

Any party to this order (permit) has the right to seek judicial review of the permit pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the EPC in the Legal Department at 1900 9th Avenue, Tampa, FL 33605; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date this Notice is filed with the clerk of the EPC.

Executed in Tampa, Florida.

Sincerely,

DRAFT

PERMIT/CERTIFICATION
Draft Permit No.: 0571450-001-AC
County: Hillsborough
Expiration Date: 12/31/2016
Project: Initial Surface Coating and
Abrasive Blasting

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rules 62-204, 62-210, 62-212, 62-296, 62-297, and 62-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents, attached hereto or on file with the EPC and made a part hereof and specifically described as follows:

The Tampa Tank Gibsonton facility will be a structural steel fabrication facility that will prepare metal surfaces using abrasive blasting and then apply surface coatings to metal parts and products. The miscellaneous metal parts will be either blasted inside an enclosed steel shot Wheelabrator blast machine or will be grit/sand blasted inside an enclosed area. Particulate matter emissions from the Wheelabrator will be controlled by a cartridge-type dust collector and the emissions from the grit/sand blasting will be controlled with a dust collector, similar to the existing Tampa Tank operations (0570344) located on 5205 Adamo Drive in Tampa. Also, vapor blasters may be used and the emissions will be controlled through the use of water.

After the completion of the shot blasting operation, the metal components will be coated using airless spray guns. Painting will be conducted in an enclosed area or on a concrete pad adjacent to the existing building. The paint spray area will have an impervious layer to prevent paint overspray and solvents from entering the soil. MEK may be used as a solvent during the cleanup processes.

Based on the PTE, the facility is subject to the requirements of Rule 62-296.513, F.A.C., which require the use of low VOC content coatings. Also, this facility is subject to Chapter 1-3.52, Rules of the EPC. However, since the facility-wide PM emissions are less than 15 tpy and 5 lbs/hr, Tampa Tank, Inc., is exempt from the PM RACT requirements of Rule 62-296.700, F.A.C.

DRAFT PERMIT/CERTIFICATION NO.: 0571450-001-AC
PROJECT: Initial Surface Coating and Abrasive Blasting

SPECIFIC CONDITIONS:

32. If the permittee wishes to transfer this permit to another owner, an "Application for Transfer of Permit" (DEP Form 62-210.900(7)) shall be submitted, in duplicate, to the Environmental Protection Commission of Hillsborough County within 30 days after the sale or legal transfer of the permitted facility. [Rule 62-4.120, F.A.C.]

33. The permittee shall apply for a timely revision of this permit, if affected by the promulgation of any federal NESHAP for surface coating operations. [Rule 62-4.070(3), F.A.C.]

28. A minimum of two copies of an air operating permit application shall be submitted, along with an Operation & Maintenance Plan for the Wheelabrator dust collector, to the Environmental Protection Commission of Hillsborough County within 60 days of completion of the compliance tests or at least 90 days prior to the expiration date of this permit, whichever occurs first. [Rules 62-4.050(2), 62-4.070(3) and 62-4.090, F.A.C.]
