**FINAL PERMIT**

**PERMITTEE**

Mickey Truck Bodies, Inc.  
1305 Trinity Avenue  
High Point, NC 27261

Authorized Representative:  
Dean Sink, President

Air Permit No. 0830134-004-AO  
Permit Expires: October 30, 2018  
Site Name: Florida Reconditioning &  
Service Center  
Air Operation Permit Renewal  
Project Name: Renewal

This is the air operation permit renewal for Mickey Truck Bodies, Inc. - Florida Reconditioning & Service Center (Standard Industrial Classification No. 7549). The facility is located in Marion County at 601 NW 24<sup>th</sup> Ct. in Ocala, Florida. The UTM coordinates are Zone 17, 388.88 km East, and 3232.48 km North.

This final permit is organized by the following sections:

Section 1. General Information

Section 2. Administrative Requirements

Section 3. Facility-wide and Emissions Unit Specific Conditions

Section 4. Appendices

Because of the technical nature of the project, the permit contains numerous acronyms and abbreviations, which are defined in Appendix A of Section 4 of this permit.

This air pollution permit is issued under the provisions of: Chapter 403 of the Florida Statutes (F.S.) and Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297 of the Florida Administrative Code (F.A.C.). The permittee is authorized to conduct the proposed work in accordance with the conditions of this permit.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of final permit. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of final permit, whichever

occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with rule 28-106.205 of the Florida Administrative Code.

All petitions filed under these rules shall contain:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301 of the Florida Administrative Code.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

Any party to this order has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General

Counsel, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Date

### CERTIFICATE OF SERVICE

The undersigned duly designated deputy agency clerk hereby certifies that this Final Air Permit package (including the Final Permit and the Appendices) was sent by electronic mail (or a link to these documents made available electronically on a publicly accessible server) with received receipt requested before the close of business on October 21, 2013 to the persons listed below.

Mr. Dean Sink, President, Mickey Truck Bodies, Inc., ([dsink@mickeybody.com](mailto:dsink@mickeybody.com))

Ms. Gina Huffman, Payroll & Benefits Manager,

Mickey Truck Bodies, Inc., ([ghuffman@mickeybody.com](mailto:ghuffman@mickeybody.com))

Mr. Tim W. Monroe, P.E., President/Senior Environmental Engineer,

Bensinger & Garrison Environmental, Inc. ([tim@bandgenvironmental.com](mailto:tim@bandgenvironmental.com))

Mr. Scott Whitmire, Plant Manager ([swhitemire@mickeytruckbody.com](mailto:swhitemire@mickeytruckbody.com))

Clerk Stamp

**FILED**, on this date, pursuant to Section 120.52, Florida Statutes, with the designated Department Clerk, receipt of which is hereby acknowledged.

## SECTION 1. GENERAL INFORMATION

### FACILITY AND PROJECT DESCRIPTION

#### Mickey Truck Bodies, Inc. – Florida Reconditioning & Service Center.

Mickey Truck Bodies operates a reconditioning and service center. The emissions from these units consist of volatile organic compounds (VOC) originating from etching, primer, and top coat material; combustion products from the air make-up heater (two make-up heaters on site, one air make-up is currently not in use); and volatile organic compounds from solvent washing and cleaning operations. Some of the VOC are also listed as hazardous air pollutants.

The existing facility consists of the following emissions units.

Facility ID No. 0830134	
ID No.	Emission Unit Description
001	Washing & Etching Booth – Preparation for painting of truck bodies. Surface pretreatment for corrosion control.
002	Paint Booth with Make-Up Air Heater – Truck body spray paint booth with make-up heater
003	Metal Surface Cleaning Operations – Cleaning of metal surfaces and parts using solvents.

#### Project Description

This project is an Air Operating Permit Renewal for an existing facility.

#### FACILITY REGULATORY CLASSIFICATION

- Based on the information provided in permit application no. 0830134-001-AC and 0830134-002-AO, this facility is classified as a natural minor facility for Volatile Organic Compounds (VOCs), individual hazardous air pollutants (HAPs), total hazardous air pollutants (HAPs), carbon monoxide (CO), nitrogen oxides (NO<sub>x</sub>), particulate matter (PM), and sulfur dioxide (SO<sub>2</sub>).
- The facility has no units subject to the acid rain provisions of the Clean Air Act (CAA).
- The facility is not a major stationary source in accordance with Rule 62-212.400(PSD), F.A.C.
- This facility is not subject to 40 CFR 63, Subpart IIII – NESHAP for Surface Coating of Automobiles and Light Duty Trucks because the facility is not a major source of air pollutants/major source of HAPs.
- This facility is subject to 40 CFR Part 63, Subpart HHHHHH – NESHAP for Area Sources: Paint Stripping and Miscellaneous Surface Coating Operations. However, Rule 62-204.800(11), F.A.C., does not list 40 CFR Part 63, Subpart HHHHHH, as a federal regulation adopted by the State of Florida as of October 11, 2013. The requirements of this regulation are **not** part of this permit.

#### PERMIT HISTORY/AFFECTED PERMITS

This permit renews Air Operation Permit No. 0830134-003-AO.

## SECTION 2. ADMINISTRATIVE REQUIREMENTS

---

1. Permitting Authority: The permitting authority for this project is the Florida Department of Environmental Protection, Central District, Waste & Air Resource Programs. The Central District's mailing address and phone number is:

Florida Department of Environmental Protection  
Central District Office  
3319 Maguire Blvd., Ste. 232  
Orlando, FL 32803-3767  
Telephone: 407-897-4100

All documents related to applications for permits shall be submitted to the above address or electronically to the following address: **DEP\_CD@dep.state.fl.us**. In each document, clearly identify the Air Permit Project No. 0830134-004-AO.

2. Compliance Authority: All documents related to compliance activities such as reports, tests, and notifications shall be submitted to the Central District Compliance Assurance Program. (Use the above mailing or e-mail address.) In each document, clearly identify the Air Permit Project No. 0830134-004-AO and specific emission unit.
3. Appendices: The following Appendices are attached as part of this permit:
  - a. Appendix A. Citation Formats and Glossary of Common Terms;
  - b. Appendix B. General Conditions; and
  - c. Appendix C. Common Conditions
4. Applicable Regulations, Forms and Application Procedures: Unless otherwise specified in this permit, the construction and operation of the subject emissions units shall be in accordance with the capacities and specifications stated in the application. The facility is subject to all applicable provisions of: Chapter 403, F.S.; and Chapters 62-4, 62-204, 62-210, 62-212, 62-213, 62-296 and 62-297, F.A.C. Issuance of this permit does not relieve the permittee from compliance with any applicable federal, state, or local permitting or regulations.
5. New or Additional Conditions: For good cause shown and after notice and an administrative hearing, if requested, the Department may require the permittee to conform to new or additional conditions. The Department shall allow the permittee a reasonable time to conform to the new or additional conditions, and on application of the permittee, the Department may grant additional time.  
[Rule 62-4.080, F.A.C.]
6. Modifications: Unless otherwise exempt by rule, the permittee shall not initiate any construction, reconstruction, or modification at the facility and shall not install/modify any pollution control device at the facility without obtaining prior authorization from the Department. Modification is defined as "Any physical change or changes in the method of operations or addition to a facility that would result in an increase in the actual emissions of any air pollutant subject to air regulations, including any not previously emitted, from any emission unit or facility".  
[Rules 62-210.200 - Definition of "Modification" and 62-210.300(1)(a), F.A.C.]

## SECTION 2. ADMINISTRATIVE REQUIREMENTS

---

7. Operation Permit Renewal Application: A completed application for renewal of the operation permit shall be submitted to the Permitting Authority no later than 60 days prior to the expiration date of the operation permit. To properly apply for an operation permit, the applicant shall submit the following:
- a. the appropriate permit application form (*see current version of Rule 62-210.900, F.A.C. (Forms and Instructions), and/or FDEP Division of Air Resource Management website at: <http://www.dep.state.fl.us/air/>*);
  - b. the appropriate operation permit application fee from Rule 62-4.050(4)(a), F.A.C.; and
  - c. copies of the most recent two months of records/logs specified in Specific Condition No. **A.8.**

[Rules 62-4.030, 62-4.050, 62-4.070(3), 62-4.090, 62-210.300(2), and 62-210.900, F.A.C.]

## SECTION 3. FACILITY-WIDE AND EMISSIONS UNIT SPECIFIC CONDITIONS

### A. EU No. 001, 002, and 003

This section of the permit addresses the following emissions units.

ID No.	Emission Unit Description
001	Washing & Etching Booth – Preparation for painting of truck bodies. Surface pretreatment for corrosion control.
002	Paint Booth with Make-Up Air Heater – Truck body spray paint booth with make-up heater
003	Metal Surface Cleaning Operations – Cleaning of metal surfaces and parts using solvents.

### PERFORMANCE RESTRICTIONS

- A.1. Restricted Operation: The hours of operation are not limited (8760 hours per year).  
[Rule 62-210.200(PTE), F.A.C.]
- A.2. Circumvention: No person shall circumvent any pollution control device or allow air pollutants without the applicable air pollution control operating properly.  
[Rule 62-210.650, F.A.C.]
- A.3. VOC Emissions: Pursuant to Rule 62-296.320(1), F.A.C., the following procedures shall be used to minimize emissions:
- Maintain tightly fitting cover, lids, etc. on all containers of VOC when they are not being handled, tapped, etc.;
  - Where possible and practical, procure/fabricate a tight fitting cover for any open trough, basin, bath, tanks, etc. of VOC when not in use;
  - All equipment, fittings, valve lines, pipes, drums, tanks, etc. shall be properly operated and maintained;
  - Prevent excessive air turbulence across exposed VOCs; and
  - All VOC spills shall be attended to immediately and waste properly disposed of, recycled, etc.
- [Rule 62-296.320(1), F.A.C.]
- A.4. Objectionable Odor Prohibited: No person shall cause, suffer, allow or permit the discharge of air pollutants which cause or contribute to an objectionable odor. An objectionable odor is defined as any odor present in the outdoor atmosphere which by itself or in combination with other odors, is or may be harmful or injurious to human health or welfare which unreasonably interferes with the comfortable use and enjoyment of life or property, or which creates a nuisance. [Rules 62-210.200(214) and 62-296.320(2), F.A.C.]

## SECTION 3. FACILITY-WIDE AND EMISSIONS UNIT SPECIFIC CONDITIONS

### A. EU No. 001, 002, and 003

- A.5. All reasonable precautions shall be taken to prevent emissions of unconfined particulate matter. Reasonable precautions shall include, but not be limited to, the following:
- maintain filters in good working order; and
  - replace filters when replacement is needed.
- [Rule 62-296.320(4)(c), F.A.C.]

### EMISSIONS STANDARDS

- A.6. Visible Emissions Limitation: Visible emissions from each particulate emissions source are limited to less than 20 percent opacity. [Rule 62-296.320(4)(b)1., F.A.C.]
- A.7. VOC and HAP Emission Limitations: The maximum facility-wide VOC and HAP emissions are limited as follows:

<b>Pollutant</b>	<b>Emission Limits (tons per any consecutive 12 month period)</b>
Total Volatile Organic Compounds (VOCs)	Less than 25.0
Total Hazardous Air Pollutant (HAPs)	Less than 25.0
Individual Hazardous Air Pollutant (HAP)	Less than 10.0

[Rules 62-4.070(3) and 62-210.200(247), Potential to Emit, F.A.C.]

### RECORDS AND REPORTS

- A.8. Monthly Log: In order to demonstrate compliance with Specific Condition Nos. **A.7.**, the permittee shall maintain a log at the facility for a period of at least 5 years from the date the data is recorded. The log shall be made available to the Department upon request. The log shall contain the following:
- Facility Name, Facility ID No. (i.e., 0830134);
  - Month and year of record;
  - Most recent monthly total of VOC emissions, total HAP emissions, and individual HAP emissions;
  - Most recent consecutive 12-month total of VOC emissions, total HAP emissions, and individual HAP emissions; and
  - Dated maintenance records of each spray booth filter replacement.

### SECTION 3. FACILITY-WIDE AND EMISSIONS UNIT SPECIFIC CONDITIONS

---

#### A. EU No. 001, 002, and 003

Monthly logs shall be completed by the end of the following month.  
[Rule 62-4.070(3), F.A.C.]

- A.9. Additional Recordkeeping Requirements: Records specified in Specific Condition No. **A.8.** (previous condition) must document the method, calculations, and formulas used in determining the usage rate and the emission rate. All calculations, including those used to derive emissions, must be clearly documented, and may be presented in the form of a template of sample calculations and available for review on site by the Department.  
[Rule 62-4.070(3), F.A.C.]
- A.10. Supporting Documentation: Supporting documentation (chemical usage tracking logs, “As Supplied” sheets, MSDS sheets, EPA data sheets, purchase orders, waste shipment/disposal records, etc.) shall be kept for each chemical and associated products which includes sufficient information to determine usage rates and emissions for a minimum of five (5) years and made available to the Department upon request. Documentation of each chemical reclaimed will use a mass balance method to determine usage/emissions (amount used minus amount collected for disposal or recycle). [Rule 62-4.070(3), F.A.C.]
- A.11. Record Retention: The records required in Specific Condition No. **A.8.** shall be recorded in a permanent form suitable for inspection and made available to the Department upon request. The records shall be maintained onsite for a minimum of five (5) years.  
[Rule 62-4.070(3), F.A.C.]

## **SECTION 4. APPENDICES**

---

### **Contents**

Appendix A. Citation Formats and Glossary of Common Terms

Appendix B. General Conditions

Appendix C. Common Conditions

**SECTION 4. APPENDIX A**

**Citation Formats and Glossary of Common Terms**

---

**CITATION FORMATS**

The following illustrate the formats used in the permit to identify applicable requirements from permits and regulations.

**New Permit Numbers**

Example: Permit Nos. 0992222-001-AC, 0992222-001-AF, 0992222-001-AO, or 0992222-001-AV

Where: “099” (first three numbers) represents the specific county ID number in which the project is located

“2222” represents the specific facility ID number for that county

“001” identifies the specific permit project number

“AC” identifies the permit as an air construction permit

“AF” identifies the permit as a minor source federally enforceable state operation permit

“AO” identifies the permit as a minor source air operation permit

“AV” identifies the permit as a major Title V air operation permit

**Florida Administrative Code (F.A.C.)**

Example: [Rule 62-213.205, F.A.C.]

Means: Title 62, Chapter 213, Rule 205 of the Florida Administrative Code

**Code of Federal Regulations (CFR)**

Example: [40 CFR 60.7]

Means: Title 40, Part 60, Section 7

**GLOSSARY OF COMMON TERMS**

**° F:** degrees Fahrenheit

**AAQS:** Ambient Air Quality Standard

**acf:** actual cubic feet

**acfm:** actual cubic feet per minute

**ARMS:** Air Resource Management System (DEP database)

**BACT:** best available control technology

**bhp:** brake horsepower

**Btu:** British thermal units

**CAM:** compliance assurance monitoring

**CEMS:** continuous emissions monitoring system

**cfm:** cubic feet per minute

**CFR:** Code of Federal Regulations

**CAA:** Clean Air Act

**CMS:** continuous monitoring system

**CO:** carbon monoxide

**CO<sub>2</sub>:** carbon dioxide

**COMS:** continuous opacity monitoring system

**DARM:** Division of Air Resource Management

**DEP:** Department of Environmental Protection

**Department:** Department of Environmental Protection

## SECTION 4. APPENDIX A

## SECTION 4. APPENDIX B

### General Conditions

The permittee shall comply with the following general conditions from Rule 62-4.160, F.A.C.

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are “permit conditions” and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.987(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:
  - a. Have access to and copy any records that must be kept under conditions of the permit;
  - b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
  - c. Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules. Reasonable time may depend on the nature of the concern being investigated.
8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

## SECTION 4. APPENDIX B

### General Conditions

- a. A description of and cause of noncompliance; and
  - b. The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance. The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.
9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.
10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules. A reasonable time for compliance with a new or amended surface water quality standard, other than those standards addressed in Rule 62-302.500, F.A.C., shall include a reasonable time to obtain or be denied a mixing zone for the new or amended standard.
11. This permit is transferable only upon Department approval in accordance with Rules 62-4.120 and 62-730.300, F.A.C., as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.
12. This permit or a copy thereof shall be kept at the work site of the permitted activity.
13. This permit also constitutes:
- a. Determination of Best Available Control Technology (not applicable);
  - b. Determination of Prevention of Significant Deterioration (not applicable); and
  - c. Compliance with New Source Performance Standards (not applicable).
14. The permittee shall comply with the following:
- a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
  - b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
  - c. Records of monitoring information shall include:
    - (a) The date, exact place, and time of sampling or measurements;

**SECTION 4. APPENDIX B**

---

**General Conditions**

- (b) The person responsible for performing the sampling or measurements;
  - (c) The dates analyses were performed;
  - (d) The person responsible for performing the analyses;
  - (e) The analytical techniques or methods used;
  - (f) The results of such analyses.
15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

## SECTION 4. APPENDIX C

### Common Conditions

Unless otherwise specified in the permit, the following conditions apply to all emissions units and activities at the facility.

#### EMISSIONS AND CONTROLS

1. Plant Operation - Problems: If temporarily unable to comply with any of the conditions of the permit due to breakdown of equipment or destruction by fire, wind or other cause, the permittee shall notify each Compliance Authority as soon as possible, but at least within one working day, excluding weekends and holidays. The notification shall include: pertinent information as to the cause of the problem; steps being taken to correct the problem and prevent future recurrence; and, where applicable, the owner's intent toward reconstruction of destroyed facilities. Such notification does not release the permittee from any liability for failure to comply with the conditions of this permit or the regulations. [Rule 62-4.130, F.A.C.]
2. Circumvention: The permittee shall not circumvent the air pollution control equipment or allow the emission of air pollutants without this equipment operating properly. [Rule 62-210.650, F.A.C.]
3. Excess Emissions Allowed: Excess emissions resulting from startup, shutdown or malfunction of any emissions unit shall be permitted providing (1) best operational practices to minimize emissions are adhered to and (2) the duration of excess emissions shall be minimized but in no case exceed 2 hours in any 24-hour period unless specifically authorized by the Department for longer duration. Pursuant to Rule 62-210.700(5), F.A.C., the permit subsection may specify more or less stringent requirements for periods of excess emissions. Rule 62-210-700(Excess Emissions), F.A.C., cannot vary or supersede any federal NSPS or NESHAP provision. [Rule 62-210.700(1), F.A.C.]
4. Excess Emissions Prohibited: Excess emissions caused entirely or in part by poor maintenance, poor operation, or any other equipment or process failure that may reasonably be prevented during startup, shutdown or malfunction shall be prohibited. [Rule 62-210.700(4), F.A.C.]
5. Excess Emissions - Notification: In case of excess emissions resulting from malfunctions, the permittee shall notify the Compliance Authority in accordance with Rule 62-4.130, F.A.C. A full written report on the malfunctions shall be submitted in a quarterly report, if requested by the Department. [Rule 62-210.700(6), F.A.C.]
6. VOC or OS Emissions: No person shall store, pump, handle, process, load, unload or use in any process or installation, volatile organic compounds (VOC) or organic solvents (OS) without applying known and existing vapor emission control devices or systems deemed necessary and ordered by the Department. [Rule 62-296.320(1), F.A.C.]
7. Objectionable Odor Prohibited: No person shall cause, suffer, allow or permit the discharge of air pollutants, which cause or contribute to an objectionable odor. An "objectionable odor" means any odor present in the outdoor atmosphere which by itself or in combination with other odors, is or may be harmful or injurious to human health or welfare, which unreasonably interferes with the comfortable use and enjoyment of life or property, or which creates a nuisance. [Rules 62-296.320(2) and 62-210.200(Definitions), F.A.C.]
8. General Visible Emissions: No person shall cause, let, permit, suffer or allow to be discharged into the atmosphere the emissions of air pollutants from any activity equal to or greater than 20%

## SECTION 4. APPENDIX C

### Common Conditions

opacity. This regulation does not impose a specific testing requirement. [Rule 62-296.320(4)(b)1, F.A.C.]

#### 9. Unconfined Particulate Emissions:

- a. No person shall cause, let, permit, suffer or allow the emissions of unconfined particulate matter from any activity, including vehicular movement; transportation of materials; construction, alteration, demolition or wrecking; or industrially related activities such as loading, unloading, storing or handling; without taking reasonable precautions to prevent such emissions.
- b. Any permit issued to a facility with emissions of unconfined particulate matter shall specify the reasonable precautions to be taken by that facility to control the emissions of unconfined particulate matter.
- c. Reasonable precautions include the following:
  - (1) Paving and maintenance of roads, parking areas and yards.
  - (2) Application of water or chemicals to control emissions from such activities as demolition of buildings, grading roads, construction, and land clearing.
  - (3) Application of asphalt, water, oil, chemicals or other dust suppressants to unpaved roads, yards, open stock piles and similar activities.
  - (4) Removal of particulate matter from roads and other paved areas under the control of the owner or operator of the facility to prevent reentrainment, and from buildings or work areas to prevent particulate from becoming airborne.
  - (5) Landscaping or planting of vegetation.
  - (6) Use of hoods, fans, filters, and similar equipment to contain, capture and/or vent particulate matter.
  - (7) Confining abrasive blasting where possible.
  - (8) Enclosure or covering of conveyor systems.

[Rule 62-296.320(4)(c), F.A.C.]

#### **RECORDS AND REPORTS**

10. Records Retention: All measurements, records, and other data required by this permit shall be documented in a permanent, legible format and retained for at least 5 years following the date on which such measurements, records, or data are recorded, unless otherwise specified by Department rule. Records shall be made available to the Department upon request. [Rule 62-4.160, F.A.C.]
  - a. *Annual Operating Report for Air Pollutant Emitting Facility*
    - (1) The Annual Operating Report for Air Pollutant Emitting Facility (DEP Form No. 62-210.900(5)) shall be completed each year for the following facilities:
      - a. All Title V sources.
      - b. All synthetic non-Title V sources.

## SECTION 4. APPENDIX C

### Common Conditions

- c. All facilities with the potential to emit ten (10) tons per year or more of volatile organic compounds or twenty-five (25) tons per year or more of nitrogen oxides and located in an ozone nonattainment area or ozone air quality maintenance area.
  - d. All facilities for which an annual operating report is required by rule or permit.
- (2) Notwithstanding paragraph 62-210.370(3)(a), F.A.C., no annual operating report shall be required for any facility operating under an air general permit.
  - (3) The annual operating report shall be submitted to the appropriate Department of Environmental Protection (DEP) division, district or DEP-approved local air pollution control program office by April 1 of the following year. If the report is submitted using the Department's electronic annual operating report software, there is no requirement to submit a copy to any DEP or local air program office.
  - (4) Emissions shall be computed in accordance with the provisions of subsection 62-210.370(2), F.A.C., for purposes of the annual operating report.
  - (5) Facility Relocation. Unless otherwise provided by rule or more stringent permit condition, the owner or operator of a relocatable facility must submit a Facility Relocation Notification Form (DEP Form No. 62-210.900(6)) to the Department at least 30 days prior to the relocation. A separate form shall be submitted for each facility in the case of the relocation of multiple facilities which are jointly owned or operated.

[Rule 62-210.370(3), F.A.C.]

## TECHNICAL EVALUATION AND PRELIMINARY DETERMINATION

---

### GENERAL PROJECT INFORMATION

#### Air Pollution Regulations

Projects at stationary sources with the potential to emit air pollution are subject to the applicable environmental laws specified in Section 403 of the Florida Statutes (F.S.). The statutes authorize the Department of Environmental Protection (Department) to establish regulations regarding air quality as part of the Florida Administrative Code (F.A.C.), which includes the following applicable chapters: 62-4 (Permits); 62-204 (Air Pollution Control – General Provisions); 62-210 (Stationary Sources – General Requirements); 62-212 (Stationary Sources – Preconstruction Review); 62-213 (Operation Permits for Major Sources of Air Pollution); 62-296 (Stationary Sources - Emission Standards); and 62-297 (Stationary Sources – Emissions Monitoring). Specifically, air construction permits are required pursuant to Rules 62-4, 62-210, and 62-212, F.A.C.

In addition, the U. S. Environmental Protection Agency (EPA) establishes air quality regulations in Title 40 of the Code of Federal Regulations (CFR). Part 60 specifies New Source Performance Standards (NSPS) for numerous industrial categories. Part 61 specifies National Emission Standards for Hazardous Air Pollutants (NESHAP) based on specific pollutants. Part 63 specifies NESHAP based on the Maximum Achievable Control Technology (MACT) for numerous industrial categories. The Department adopts these federal regulations on a quarterly basis in Rule 62-204.800, F.A.C.

#### Glossary of Common Terms

Because of the technical nature of the project, the permit contains numerous acronyms and abbreviations, which are defined in Appendix A of this permit.

I. Project Description:

A. Applicant:

Mr. Dean Sink, President  
Mickey Truck Bodies  
1305 Trinity Avenue  
High Point, NC 27261  
[dsink@mickeybody.com](mailto:dsink@mickeybody.com)

B. Application Contact No. 1:

Ms. Gina Huffman, Payroll & Benefits Manager  
Mickey Truck Bodies  
1305 Trinity Avenue  
High Point, NC 27261  
[ghuffman@mickeybody.com](mailto:ghuffman@mickeybody.com)

**TECHNICAL EVALUATION AND PRELIMINARY DETERMINATION**

---

C. Application Contact No. 2:

Mr. Tim W. Monroe, P.E., President/Senior Environmental Engineer  
Bensinger & Garrison Environmental, Inc.  
P.O. Box 14609  
RTP, NC 27709  
[timm@bandgenvironmental.com](mailto:timm@bandgenvironmental.com)

D. Facility Contact:

Mr. Scott Whitmire, Plant Manager  
Mickey Truck Bodies, Inc.  
601 NW 24<sup>th</sup> Ct.  
Ocala, FL 34475  
[swhitemire@mickeytruckbody.com](mailto:swhitemire@mickeytruckbody.com)

D. Project Location:

601 NW 24<sup>th</sup> Ct.  
Ocala, FL 34475

E. Project Summary:

This is an air operation permit renewal for a surface coating operation.

F. Application Information:

Application Received on: 08/30/2013  
Application determined to be complete on: 09/20/2013

II. PSD Applicability for Project

Potential to emit (PTE) air emissions are below 250 tons/yr.; therefore, this project is not subject to PSD preconstruction review.

III. Rule Applicability

This project is subject to the preconstruction review requirements of Chapter 403, Florida Statutes, and Chapters 62-204 through 62-297, F.A.C., as indicated below.

<b>Subject to:</b>	<b>Y/N</b>	<b>Comments</b>
<b>Rule 62-212.400, F.A.C.</b> - Prevention of Significant Deterioration	N	Facility is not a PSD major source.

**TECHNICAL EVALUATION AND PRELIMINARY DETERMINATION**

<b>Subject to:</b>	<b>Y/N</b>	<b>Comments</b>
<b>Rule 62-296.320(4), F.A.C.</b> - General Particulate Emission Limiting Standards	Y	The facility is a source of unconfined particulate matter emissions. Visible emissions for each source that emits particulates are limited to less than 20 % opacity.
<b>Rules 62-296.320(1) and (2), F.A.C.</b> - General Pollutant Emission Limiting Standards (VOCs and Odor)	Y	The paint/solvents are sources of VOCs and odors.
<b>Rule 62-296.400, F.A.C.</b> – Stationary Source Emission Standards	N	There is no applicable source category.
<b>Rule 62-296.500, F.A.C.</b> - Reasonably Available Control Technology (VOC)	N	Marion County is an attainment area for ozone
<b>Rule 62-204.800(8), F.A.C.</b> - Standards of Performance for New Stationary Sources (NSPS – 40 CFR 60)	N	There is no applicable source category.
<b>Rule 62-204.800(11), F.A.C.</b> National Emission Standard for Hazardous Air Pollutants for Source Categories a.k.a. MACT (NESHAPS – 40 CFR 63)	N	This facility is not subject to 40 CFR 63, Subpart IIII – NESHAP for Surface Coating of Automobiles and Light Duty Trucks because the facility is not a major source of air pollutants/major source of HAPs.
<b>Rule 62-204.800(11), F.A.C.</b> National Emission Standard for Hazardous Air Pollutants for Source Categories a.k.a. MACT (NESHAPS – 40 CFR 63)	Y	This facility is subject to 40 CFR Part 63, Subpart HHHHHH – NESHAP for Area Sources: Paint Stripping and Miscellaneous Surface Coating Operations; However, Rule 62-204.800(11), F.A.C., does not list 40 CFR Part 63, Subpart HHHHHH, as a federal regulation adopted by the State of Florida as of October 11, 2013. The requirements of this regulation are <b>not</b> part of this permit.
<b>Chapter 62-213, F.A.C.</b> - Operation Permits for Major Sources of Air Pollution	N	Facility is a natural minor source of VOC (volatile organic compound), total HAPs (Hazardous Air Pollutant), individual HAPs, Carbon Monoxide (CO), Nitrogen Oxides (NO <sub>x</sub> ), Particulate Matter (PM), and Sulfur Dioxide (SO <sub>2</sub> ). The requirement to submit an AOR (Annual Operation Report) has been removed

**TECHNICAL EVALUATION AND PRELIMINARY DETERMINATION**

<b>Subject to:</b>	<b>Y/N</b>	<b>Comments</b>
<b>Rule 62-297.310, F.A.C. – General Compliance Test Requirements</b>	N	No compliance testing is required.

IV. Summary of Emissions

Pollutant	EU No. and brief description	Actual Emissions Calendar (tons/year)	Potential Emissions (tons/year)	Major Source Thresholds (tons/year)
CO*	Facility	0.03	0.86	100
NO <sub>X</sub> *	Facility	0.03	1.03	100
PM*	Facility	0.01	0.82	25
SO <sub>2</sub> *	Facility	0.00006	0.01	100
VOC**	Facility	3.07	14.960	100
Individual HAP** (Glycol Ether)	Facility	0.13	1.078	10
Individual HAP** (Hydrogen Fluoride)	Facility	0.0	1.291	10
Individual HAP** (MEK)	Facility	0.21	1.248	10
Individual HAP** (MIBK)	Facility	0.0	0.043	10
Individual HAP** (Methylene Chloride)	Facility	0.0	0.33	10
Individual HAP** (Xylenes)	Facility	0.154	0.624	10
Total HAPs**	Facility	< 1.0	4.307	25

\*based on 8760 hours of normal annual operation

\*\* based on 480 truck bodies per year for VOC, individual HAPs, and total HAPS.

I reviewed data in the ARMS database for calendar year 2012. The potential emissions are based on information and calculations in Permit Application Nos. 0830134-001-AC and 0830134-002-AC.

V. Discussion

This is a renewal of an air operation permit for a natural minor facility. The requirement to submit an AOR (Annual Operating Report) has been removed.

## TECHNICAL EVALUATION AND PRELIMINARY DETERMINATION

---

### VI. Federal NSPS and/or NESHAP Provisions

This facility is **not** subject to 40 CFR 63, Subpart IIII – NESHAP for Surface Coating of Automobiles and Light Duty Trucks, because the facility is **not** a major source of air pollutants/hazardous air pollutants (HAPs). This facility **is subject** to 40 CFR Part 63, Subpart HHHHHH – NESHAP for Area Sources: Paint Stripping and Miscellaneous Surface Coating Operations. However, Rule 62-204.800(11), F.A.C., does not list 40 CFR Part 63, Subpart HHHHHH, as a federal regulation adopted by the State of Florida as of October 11, 2013. The requirements of this regulation are **not** part of this permit.

### VII. Conclusions

The General and Specific Conditions listed in the proposed permit (attached) will assure compliance with all the applicable requirements of Chapters 62-204 through 297, F.A.C.

### VIII. Preliminary Determination

The Department makes a preliminary determination that the proposed project will comply with all applicable state and federal air pollution regulations as conditioned by the draft permit. This determination is based on a technical review of the complete application, reasonable assurances provided by the applicant, and the conditions specified in the draft permit. Additional details of this analysis may be obtained by contacting the project engineer at the Florida Department of Environmental Protection, Waste & Air Resource Programs, Central District Office, 3319 Maguire Blvd., Ste. 232, Orlando, FL 32803-3767, by e-mail at [jeff.rustin@dep.state.fl.us](mailto:jeff.rustin@dep.state.fl.us) or by phone at 407-897-4100.
