Re: Draft Permit Nos. 0890003-019-AC / PSD-FL-062B
Fernandina Beach Mill, No. 7 Power Boiler
Revisions to Permit Nos. AC45-35532 and PSD-FL-062

Dear Mr. Langstaff:

On March 6, 2007, you submitted an application to remove a limit on the fuel sulfur content for coal and to remove a requirement to meet Performance Specification 3 in Appendix B of Title 40, Code of Federal Regulations, Part 60 for the existing flue gas oxygen meter for the No. 7 Power Boiler at the Fernandina Beach Mill. Enclosed are the following documents:

- The Technical Evaluation and Preliminary Determination summarizes the Permitting Authority's technical review of the application and provides the rationale for making the preliminary determination to issue a Draft Permit.
- The proposed Draft Permit includes the specific conditions that regulate the emissions units covered by the proposed project.
- The Written Notice of Intent to Issue Air Permit provides important information regarding: the Permitting Authority's intent to issue an air permit for the proposed project; the requirements for publishing a Public Notice of the Permitting Authority's intent to issue an air permit; the procedures for submitting comments on the Draft Permit; the process for filing a petition for an administrative hearing; and the availability of mediation.
- The Public Notice of Intent to Issue Air Permit is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project.

Please submit any written comments you wish to have considered concerning the permitting authority's proposed action to Jeff Koerner at the above letterhead address. If you have any questions, please contact the project engineer, Bruce Mitchell, at 850/413-9198.

Sincerely,

FCT

Trina Vielhauer, Chief
Bureau of Air Regulation
