Re: Draft Air Permit No. 0890004-021-AC  
Rayonier Performance Fibers, LLC  
Fernandina Beach Dissolving Sulfite Pulp Mill  
No. 6 Power Boiler Permit Revision

Dear Mr. Perrett:

On December 17, 2007, you submitted an application requesting minor revisions to Power Boiler No. 6 in air construction Permit No. 0890004-018-AC, which is located at the Fernandina Beach Mill. In addition, you requested authorization for a trial burn of effluent treatment systems solids in this boiler. Enclosed are the following documents.

- The Technical Evaluation and Preliminary Determination summarizes the technical review of the application and provides the rationale for making the preliminary determination to issue a Draft Permit.
- The proposed Draft Permit includes the specific conditions that regulate the emissions units.
- The Written Notice of Intent to Issue Air Permit provides important information regarding: the intent to issue an air permit for the proposed project; the requirements for publishing a Public Notice of the intent to issue an air permit; the procedures for submitting comments on the Draft Permit; the process for filing a petition for an administrative hearing; and the availability of mediation.
- The Public Notice of Intent to Issue Air Permit is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project.

If you have any questions, please contact the Project Engineer, Corrie Branum, at 850/921-8968.

Sincerely,

Trina Vielhauer, Chief  
Bureau of Air Regulation
