Re: DEP File No. 0950137-014-AC  
Curtis H. Stanton Energy Center  
Forced Oxidation Project

Dear Ms. Stalls:

Enclosed is one copy of the Draft Air Construction Permit to install forced oxidation equipment on the wet flue gas desulfurization scrubber for Units 1 and 2 at the Curtis H. Stanton Energy Center in Orange County. The Department's Intent to Issue Air Construction Permit, the Technical Evaluation, and the "Public Notice of Intent to Issue Air Construction Permit" are also included.

The Public Notice must be published one time only as soon as possible in a newspaper of general circulation in the area affected, pursuant to the requirements of Chapter 50, Florida Statutes. Proof of publication, such as a newspaper affidavit, must be provided to the Department's Bureau of Air Regulation office within seven days of publication. Failure to publish the notice and provide proof of publication within the allotted time may result in denial of the permit modification.

Please submit any written comments you wish to have considered concerning the Department's proposed action to Mr. A.A. Linero, Program Administrator, at the letterhead address. If you have any questions regarding this matter, please contact Mr. Linero at (850) 921-9523.

Sincerely,

Trina L. Vielhauer, Chief  
Bureau of Air Regulation
