NOTICE OF FINAL PERMIT

ELECTRONIC MAIL

tracy.lane@carpenter.com

In the Matter of an
Application for Permit by:

Mr. Tracy Lane, Operations Manager
Carpenter Co.
5100 Frontage Road South
Lakeland, FL 33815-0901

DEP File No. 1050192-012-AC
Polk County

Dear Mr. Lane:

Enclosed is Final Permit Number 1050192-012-AC. This permit authorizes the Carpenter Co. to construct a calcium carbonate storage silo and modify the flexible foam manufacturing and fabrication operations. This facility is located at 5100 and 5150 Frontage Road South, Lakeland, Polk County, Florida. This permit is issued pursuant to Section(s) 403.087, Florida Statutes.

Any party to this order has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Hillsborough County, Florida.

Fabrication Facility

B.7. Operating Rate During Testing – Testing of each emission unit shall be conducted within 90-100% of the permitted capacity as stipulated in Specific Condition No. B.2. If it is impracticable to test at 90-100% of the permitted capacity, an emission unit may be tested at less than the maximum permitted capacity; in this case, subsequent emission unit operation is limited to 110 percent of the test rate until a new test is conducted. Once the unit is so limited, operation at higher capacities is allowed for no more than 15 consecutive days for the purpose of additional compliance testing to regain the authority to operate at the permitted capacity. The test results shall be submitted to the Air Compliance Section of the Department's Southwest District Office within 45 days of testing. Acceptance of the test by the Department will automatically constitute an amended permit at the higher tested rate, plus 10%, but in no case shall the maximum permitted capacity be exceeded.

[Rule 62-297.310(2), F.A.C.]

B.8. Test Report Requirements – Visible emission test reports shall be submitted to the Air Compliance Section of the Department's Southwest District Office within 45 days of testing. The test report shall include a statement of the transfer rate in lbs./hr. for the test period along with copies of the daily and monthly records for the test period as required by Specific Condition No. B.4.

[Rule 62-297.310(8), F.A.C.]

B.10. Notification Requirements - The permittee shall notify the Air Compliance Section of the Department's Southwest District Office at least 15 days prior to the date on which each formal compliance test is to begin of the date, time, and place of each such test, and the contact person who will be responsible for coordinating and having such test conducted.

{Permitting Note: The notification should include: 1) the emission unit ID No(s); 2) test method(s); and 3) the pollutant(s) to be tested.}

[Rules 62-4.070(3) and 62-297.310(7)(a)9., F.A.C.]
