Re: Project No. 1130005-021-AC  
Breitburn Operating LP, St. Regis Gas Treatment Facility and Jay Gas Plant  
Title V Source Air Construction Permit  
South Waterflood Gas Turbine

Dear Mr. Melster:

On December 22, 2014, the Florida Department of Environmental Protection (Department) received an application requesting to increase the hourly nitrogen oxides emission limit for the South Waterflood Gas Turbine to 30 pounds per hour to allow the facility to operate the turbine at the permitted capacity. This facility is located in Santa Rosa County at 5415 Oil Plant Road in Jay, Florida.

Enclosed are the following documents: the Technical Evaluation and Preliminary Determination; the Draft Permit and Appendices; the Written Notice of Intent to Issue Air Permit; and the Public Notice of Intent to Issue Air Permit. The Public Notice of Intent to Issue Air Permit is the actual notice that you must have published in the legal advertisement section of a newspaper of general circulation in the area affected by this project.

If you have any questions, please contact the project engineer, Howard Ard, at 850.595.0622 or [howard.ard@dep.state.fl.us](mailto:howard.ard@dep.state.fl.us).

Sincerely,

J. Charles Harp

## WRITTEN NOTICE OF INTENT TO ISSUE AIR PERMIT

---

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Written Notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

**Mediation:** Mediation is not available in this proceeding.

Executed in Pensacola, Florida.
