PROJECT

Air Permit No. 0010006-008-AV
Deerhaven Generating Station

The purpose of this Title V air operation permit revision project is to clarify which excess emissions provisions apply to Unit 2.

NOTICE AND PUBLICATION

The Department distributed an Intent to Issue Permit package on August 29th. The applicant published the Public Notice of Intent to Issue in the Gainesville Sun on September 9th. The Department received the proof of publication on September 10th.

COMMENTS

No comments on the Draft Permit were received from the public, the Department's Northeast District Office, the EPA Region 4 Office, or the applicant.

CONCLUSION

The final action of the Department is to issue the permit with no changes.

STATEMENT OF BASIS

Title V Air Operation Permit Revision Permit No. 0010006-008-AV

APPLICANT

The applicant for this project is Gainesville Regional Utilities. The applicant's responsible official and mailing address are: Robert E. Hunzinger, General Manager, City of Gainesville, GRU, P.O. Box 147117(A134), Gainesville, Florida 32614-7117.

FACILITY DESCRIPTION

The applicant operates the Deerhaven Generating Station, which is located at 10001 NW 13th Street, Gainesville, Alachua County, Florida.

The facility consists of two steam boilers (Unit Nos. 1 and 2) and associated steam turbines; a simple cycle combustion turbine (CT No. 3) regulated under New Source Performance Standards (NSPS); two unregulated simple cycle combustion turbines (CT Nos. 1 and 2); a recirculating cooling water system; storage and handling facilities for coal, brine salt, fly ash and bottom ash; fuel oil storage tanks; water treatment facilities; a railcar maintenance facility; and ancillary support equipment. Also, included in this permit are miscellaneous unregulated/insignificant emissions units and/or activities. Based on the Title V permit renewal application received July 2, 2004, this facility is a major source of hazardous air pollutants (HAP).

Also included in this permit are miscellaneous unregulated/insignificant emissions units and/or activities.

PROJECT DESCRIPTION

The purpose of this permitting project is to revise the existing Title V permit for the above referenced facility (permit No. 0010006-003-AV) to clarify the excess emissions limitations for Unit 2.

PRIMARY REGULATORY REQUIREMENTS

Title III: The facility is identified as a major source of hazardous air pollutants (HAP).

Title IV: The facility operates units subject to the acid rain provisions of the Clean Air Act.

Title V: The facility is a Title V major source of air pollution in accordance with Chapter 62-213, Florida Administrative Code (F.A.C.).

PSD: The facility is a Prevention of Significant Deterioration (PSD)-major source of air pollution in accordance with Rule 62-212.400, F.A.C.

NSPS: The facility operates units subject to the New Source Performance Standards (NSPS) of 40 Code of Federal Regulations (CFR) 60.

CAIR: The facility is subject to the Clean Air Interstate Rule (CAIR) set forth in Rule 62-296.470, F.A.C.

Siting: Emissions units 005 and 006 were originally certified pursuant to the power plant Siting provisions of Chapter 62-17, F.A.C.

CAM: Compliance Assurance Monitoring (CAM) applies to emissions unit 005 for the controlled emissions of particulate matter.

PROJECT REVIEW

Emissions unit -005 (Unit 2) was originally permitted through the Power Plant Siting Certification process in 1974. This unit was not issued a prevention of significant deterioration (PSD) permit with a best available control technology determination (BACT). Instead, through the Power Plant Siting certification, it was subjected to 40 CFR 60 Subpart D, Standards of Performance for Fossil-Fuel-Fired Steam Generators for Which Construction Is Commenced After August 17, 1971. Because the emissions limits that apply to this unit are only from the federal rule, the state excess emissions provisions from Rule 62-210.700, F.A.C. do not apply. It appears that the state's

STATEMENT OF BASIS

excess emissions provisions were erroneously placed into effect through the issuance of the original Title V permit. The Department believes that this was an error and agrees with the applicant's request to remove all references to Rule 62-210.700, F.A.C. from the Title V permit for Unit 2 in Section III, Subsections B. and D. This revision action does not affect any other emissions unit at the facility.

The following changes are being made to permit No. 0010006-003-AV (additions are represented by a double underline; deletions are represented by a ~~strikethrough~~):

Section III, Subsection B.

B.14. This emissions unit is also subject to Specific Conditions **D.1. and D.4.** through **D.14.** contained in **Subsection D. NSPS Common Conditions.** Unit 2 is not subject to Specific Condition D.2. of Subsection D. NSPS Common Conditions.

Section III, Subsection D.

The following Conditions apply to the emissions unit(s)/activities listed above except as noted below: Specific Conditions **D.1., D.4., D.5., D.6., D.7., D.9., D.10., D.12.** and **D.14.** *do not apply* to E.U. ID No. 007, Coal Handling and Storage Activities. Specific Conditions **D.2. and D.3.** do not apply to E.U. ID No. 005, 2,428 MMBtu/hr Steam Boiler – Unit 2.

In addition, pursuant to Rule 62-213.420(1)(a)2., F.A.C., the deadline for submittal of the Title V permit renewal has been changed to require the submission of the application 225 days prior to permit expiration. The new application due date is May 20, 2009.

The above changes are the only portions of the permit open to public comment.

CONCLUSION

This project revises Title V air operation permit No. 0010006-003-AV, which was effective on January 1, 2005. This Title V air operation permit revision is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Chapters 62-4, 62-210, 62-213 and 62-214, F.A.C. In accordance with the terms and conditions of this permit, the above named permittee is hereby authorized to operate the facility as shown on the application and approved drawings, plans, and other documents, on file with the permitting authority.
