SUBJ: EPA's Objection to Proposed Title V Permit for
City of Gainesville - Deerhaven Generating Station
Permit Number 0010006-001-AV

Dear Mr. Rhodes:

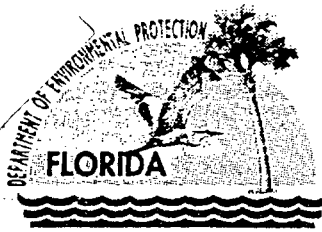

The purpose of this letter is to acknowledge the receipt of the State of Florida's proposed changes to the City of Gainesville - Deerhaven Generating Station proposed title V permit, dated December 23, 1999, which was the subject of a U.S. Environmental Protection Agency (EPA) title V objection on November 15, 1999. EPA Region 4 has completed its review of the proposed changes to the permit and believes that the State has adequately addressed each of the issues enumerated in the objection. Therefore, EPA considers the objection to be resolved. Once the State's proposed changes are incorporated into the permit, the State may proceed with permit issuance. Please note, however, that our opportunity for review and comment on this permit does not prevent EPA from taking enforcement action for issues that were not raised during permit review. After final issuance, this permit may be reopened if EPA or the permitting authority later determines that it must be revised or revoked to assure compliance with applicable requirements.

We commend the efforts of your staff for facilitating the resolution of the permit issues. If you have any questions about this letter, please contact Mr. Gregg Worley, Chief, Operating Source Section at (404) 562-9141.

Sincerely,

Winston A. Smith
Director
Air, Pesticides & Toxics
Management Division

Re: FINAL Permit Number 0010006-001-AV
Deerhaven Generating Station

Dear Mr. DuBose:

We are in receipt of your letter dated March 27, 2001 requesting changes to the FINAL Title V air operation permit for the referenced facility. However, we must deem your application incomplete due to the following reasons:

1. Please have your application submission certified by the Responsible Official of the facility using the appropriate pages of the department's form No. 62-210.900(1). The form is available on the department's internet web site: www.dep.state.fl.us/air.
2. Rule 62-4.050(3), F.A.C., requires that all original applications for a department permit, requests for permit revision, must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to department requests for additional information of an engineering nature. Please ensure that the completed application is so certified.

Please also note that we are advising applicants that Rule 62-4.055(1), F.A.C., requires a response to requests for information within 90 days. When we receive the above-mentioned items, we will continue processing your application. If you have questions, please contact me at 850/921-9532.

Sincerely,

Scott M. Sheplak, P.E.
Administrator
Title V Section
