Re: Request for Additional Information Regarding Title V Renewal Application
File No. 0010006-010-AV
Deerhaven Generating Station
Alachua County

Dear Mr. Stanton:

On May 18, 2009 the Department received your application for a Title V renewal permit for the Deerhaven Generating Station. The application is incomplete. In order to continue processing your application, the Department will need the additional information requested below pursuant to Rule 62-213.420(1)(b)3., F.A.C., and Rule 62-4.070(1), F.A.C. Should your response to any of the items below require new calculations, please submit the new calculations, assumptions, reference material and appropriate revised pages of the application form.

1. A Phase II NO_x Compliance Plan Form does not appear to have been submitted with the application. Please submit the Phase II NO_x Compliance Plan Form. This form may be found at the following website: <http://www.dep.state.fl.us/Air/forms/acidrain.htm>. Please note that the DEP version of this form was inadvertently deleted. Until it is replaced, we will be accepting EPA's form number 7610-28, which can be accessed from the above referenced link.
2. Please specify if any of the facility's generators or other emissions units are subject to 40 CFR 60 Subpart IIII, Standards of performance for Stationary Compression Ignition (CI) Internal Combustion Engines (ICE), 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines, or 40 CFR 60 Subpart JJJJ, Standards of Performance for Stationary Spark Ignition (SI) Internal Combustion Engines. If applicable,
 - a. Please specify how the facility is complying with the applicable subpart(s).
 - b. Please provide the following information for each emission unit subject to the referenced subparts: in-service date, cylinder displacement, and rule applicability.

Responsible Official (R.O.) Certification Statement: Rule 62-213.420, F.A.C. requires that all Title V permit applications must be certified by a responsible official. Due to the nature of the information requested in Item number(s) 1 above, your response should be certified by the responsible official. Please complete and submit a new R.O. certification statement page from the long application form, DEP Form No. 62-210.900(1), effective March 16, 2008.

John W. Stanton
July 8, 2009
Page 2 of 2

Professional Engineer (P.E.) Certification Statement: Rule 62-4.050(3), F.A.C. requires that all applications for a Department permit must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to Department requests for additional information of an engineering nature. As a result, at a minimum your response to Item number(s) 1 and 2 above should be certified by a professional engineer registered in the State of Florida. Please complete and submit a new P.E. certification statement page from the long application form, DEP Form No. 62-210.900(1), effective March 16, 2008.

The Department must receive a response from you within 90 (ninety) days of receipt of this letter, unless you (the applicant) request additional time under Rule 62-213.420(1)(b)5., F.A.C. In order to ensure that your acid rain permit is effective by January 1, 2010, you are highly encouraged to respond to this request as soon as possible.

If you should have any questions, please call Susan Machinski, Engineering Specialist IV, at 239/332-6975, ext. 109.

Sincerely,

Jonathan Holtom, P.E., CPM
Title V Program Administrator
Bureau of Air Regulation
