Subject: Hydrocarbon Emission Measurements  
Florida Rock Industries, Inc.  
Newberry, Florida  
Permit No. AC01-267311

Dear Mr. Kirts:

Koogler & Associates is scheduled to conduct hydrocarbon emission measurements on the kiln/raw mill stack at the Thompson S. Baker Cement Plant on October 10, 2000. The test crew will arrive on site at 7:00 a.m.

Florida Rock Industries has located a source of low hydrocarbon mill scale. This testing is being conducted to demonstrate that the facility can operate in compliance with the VOC emission limits when using the low hydrocarbon mill scale as one of the raw materials.

If you have any questions, please do not hesitate to contact me at 352-377-5822.

Very truly yours,

KOOGLER & ASSOCIATES

John B. Koogler, Ph.D., P.E.
