4284  
PUBLIC NOTICE OF INTENT TO ISSUE AN AIR CONSTRUCTION PERMIT/ PSD PERMIT AMENDMENT.  
STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION

Draft Air Construction Permit No.: 0050009-014-AC  
Draft PSD Permit Amendment No.: PSD-FL-288(A)  
Stone Container Corporation  
Panama City Mill  
Bay County

The Department of Environmental Protection (permitting authority) gives notice of its intent to issue an Air Construction Permit/ PSD Permit Amendment (letter) to Stone Container Corporation for its existing pulp mill located in Panama City, Bay County. The applicant's name and address are: Thomas L. Clements, Environmental Superintendent, One Everitt Avenue, Panama City, Florida 32412-0560. The permittee, Stone Container Corporation, applied on April 28, 2003, for a modification to the woodyard's method of operation at the existing pulp mill. The modification will correct the woodyard's allowable production rates from 1,524,600 cords of purchased chips per year and 1,946,934 cords of roundwood per year to 1,524,600 tons of purchased chips per year and 1,946,934 tons of roundwood per year. The permitting authority will issue the Air Construction Permit/PSD Permit Amendment, and subsequent Final Air Construction Permit/PSD Permit Amendment, in accordance with the condition of the Draft Air Construction Permit/PSD Permit Amendment, unless a response received in accordance with the following procedures results in a different decision or significant change of terms or condition.

The permitting authority will accept written comments concerning the proposed Draft Air Construction Permit/PSD Permit Amendment (letter), issuance action for a period of 30 (thirty) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the Draft Air Construction Permit/PSD Permit Amendment (letter), the permitting authority shall issue a Revised Draft Air

Construction Permit/PSD Permit Amendment (letter) and require, if applicable, another Public Notice.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 of the Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000 (Telephone: 850/488-9730; Fax: 850/487-4938). Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen (14) days of publication of the public notice or within fourteen (14) days of receipt of the notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the permitting authority for notice of agency action may file a petition within fourteen (14) days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the applicable time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Florida Administrative Code (F.A.C.) Rule 28-106.205.

A petition that disputes the material facts on which the permitting authority's action is based must contain the following information:

(a) The name and address of each agency affected and each agency's

file(s) or identification number(s), if known;

(b) The name, address and telephone number of the petitioner; name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how petitioner's substantial rights will be affected by the agency determination;

(c) A statement of how and when the petitioner received notice of the agency action or proposed action;

(d) A statement of all disputed issues of material fact. If there are none, the

petition must so state;  
(e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle petitioner to relief; and  
(f) A demand for relief.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available for this proceeding.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

RE: FILE NO. 0050009-005-AC (PSD-FL-288)  
STONE CONTAINER CORP. PANAMA CITY MILL  
PULP PRODUCTION INCREASE

BUREAU OF AIR REGULATION

Dear Mr. Fancy:

On behalf of Stone Container Corporation (SCC), Golder Associates Inc. (Golder) is submitting additional information for the above-referenced request for a pulp production increase for SCC's Panama City mill. As requested by Bruce Mitchell in a telephone conversation with Charlie Ackel on April 30, 2002, the particular item of interest is the attached facility plot plan. This plot contains the modeling origin (denoted by the darkest, intersecting lines), the modeled buildings and sources (plotted in dark black over the AutoCAD plot plan), and a grid comprised of 100 foot spaced gridlines. The angle of rotation used to translate the locations from plant north to true north inherent in the actual model runs is 40 degrees.

Thank you in advance for promptly reviewing this information. Please call me or Erin Gorman at 352-336-5600 if you have any questions concerning this information.

Sincerely,

GOLDER ASSOCIATES INC.

Dear Yi,

Please check the ARMS change that was made for the above referenced permitting project. The change affected EU -030 for the Woodyard Operations...I made a comment in the "comment area" to reflect the amount of chips and roundwood allowed to be processed in the Woodyard Operations. Many thanks and please advise if I need to anything more. Take care.

Bruce
