Dear Mr. Halpin:

RE: LANSING SMITH ELECTRIC GENERATION FACILITY UNIT 4 & 5 COMBINED CYCLE UNITS DEP File No. 99-40, PSD-FL-269
Permit Modification - Public Notice Affidavit

Thanks for the quick response to Gulf Power's request to revise the above referenced PSD Permit to increase the allowable heat input pursuant to actual test results and revised information from General Electric. Enclosed is the proof of publication, i.e.,newspaper affidavit regarding the <u>Public Notice of Intent to Issue PSD Permit Modification</u> originally sent to Robert G. Moore (Gulf Power) on May 17, 2002.

Please let me know if you have any questions regarding this matter and if you receive any public comments regarding our request for PSD Permit Modification.

Sincerely,

G. Dwain Waters, Q.E.P.

Gulf Power Company, One PUBLIC NOTICE OF Energy Place Pensacola, INTENT TO ISSUE PSD FL 32520 PERMIT MODIFICATION

> This modification will revise the authorized heat input rates from 1751 MMBtu/hr (LHV at 65 degrees F) to 1927 MMBtu/hr (HHV at 65 degrees F) for each combustion turbine. The modification will also revise the maximum heat input of the duct burners from 275 MMBtu/hr (LHV at 65 degrees F) to 303 MMBtu/hr (HHV at 65 degrees F) each. partment estimates that the maximum heat inputs using the HHV values are roughly equivalent to the LHV values. There will be no change to the authorized emissions as a result of this modification.

An air quality impact analysis was not conducted. The Department will issue the Final Permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

This modification will revise the authorized heat input rates from 1751 MMBtu/hr (LHV at 65 degrees F) to 1927 MMBtu/hr (HHV at 65 degrees F) for each combustion turbine. The modification will also revise the maximum heat input of the duct burners from 275 MMBtu/hr (LHV at 65 degrees F) to 303 MMBtu/hr (HHV at 65 degrees F) each The Department estimates that the maximum heat inputs using the HHV values are roughly equivalent to the LHV values. There will be no change to the authorized emissions as a result of this modification.

An air quality impact analysis was not conducted. The Department will issue the Final Permit with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit issuance action for a period of 14 (fourteen) days from the date of publication of this Public Notice of Intent to Issue PSD Permit Modification. Written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505. Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to sections 120.569 and 120.57 F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below. Mediation is not

available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision of the Department may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the\_permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of the notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the De-

partment for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) ununder sections 120.569 and 120.57 F.S. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address,

and telephone number of the petitioner: the name. address and telephone number of the petitioner's representative, if any which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action: (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to

take with respect to the

agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.301.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons 'whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection Bureau of Air Regulation Suite 4, 111 S. Magnolia Drive Tallahassee, Florida 32301 Telephone: 850/488-0114 Fax: 850/922-6979

Dept. of Erivironmental Protection Northwest Division 160 Governmental Center Pensacola, Florida 32501-5794 Telephone: 850/595-8300 Fax: 850/595-4417

The complete project file includes the application, Draft permit, and the information submitted by the Responsible Official, exclusive of confidential records under Section 403.111. F.S. Interested persons may contact the Administrator, New Source Review Section, at 111, South Magnolia Drive, Suite 4, Florida Tallahassee, 32301. 850/488-0144, for additional information. The Draft Permit may be viewed at http://www.dep.state.fl.us/ air/permitting/construct. htm. May 29, 2002
