Mr. Jonathan Holtom P.E.
Florida Department of Environmental Protection
Division of Air Resources Management
2600 Blair Stone Road
Mail Station #5505
Tallahassee, Florida 32399-2400

Dear Mr. Holtom:

RE: LANSING SMITH ELECTRIC GENERATING PLANT
INSIGNIFICANT ACTIVITIES CHANGE REQUEST
TITLE V PERMIT NO. 0050014-018-AV

Gulf Power hereby requests the addition of new two insignificant activities under Appendix I of the Lansing Smith Title V Permit No. 0050014-018-AV. Pursuant to our recent discussions, these activities meet the definition of "Nonroad Engines" under 40 CFR 1068.30 and thus qualify as insignificant activities.

In addition, we also request that the item identified as the "Carry Deck Cherry Picker, Shuttlelift Inc., Model 3330ELB" under EU 009 in Appendix ICE be deleted since it is no longer operational and is being retired from service. This item is being replaced by the one of the insignificant activities noted above.

Enclosed is a detail list of the requested changes with a statement of certification by the Responsible Official. It is our understanding that the Department will log these requests and revise the Lansing Smith Title V Permit with the updated information at the next available opening or renewal of the permit.

Please call me at (850) 444-6527 regarding any questions or concerns regarding this request.

Sincerely,

Handwritten signature of G. Dwain Waters, Q.E.P.
