0330045 - 008-AC Crist
0630014 - 005-AV Scholz

Dear Mr. Fancy:

This letter is provided in accordance with the requirements outlined in Rule 62-213.440(2), Florida Administrative Code (F.A.C.), and Appendix CP-1 of the Crist Electric Generating Plant, Scholz Electric Generating Plant, and the Lansing Smith Electric Generating Plant permits. On November 18, 2003, Southern Company submitted a revised Southern Company Phase II NOx Averaging Plan to the States of Alabama, Florida, Georgia, and Mississippi and to Jefferson County, Alabama, with copies to the U.S. Environmental Protection Agency. A copy of this revised plan for the State of Florida is attached.

The existing Southern Company Phase II NOx Averaging Plan is dated April 15, 1999, for the 5-year period 2000 - 2004. This revised plan replaces that plan and covers the period 2004 - 2008.

This revised Southern Company NOx averaging plan has been approved by the Alabama Department of Environmental Management, Georgia Environmental Protection Division, Mississippi Department of Environmental Quality, and the Jefferson County, Alabama, Department of Health. In conjunction with final approval of the averaging plan, the agencies have or are in the process of updating permits for these units to incorporate this new plan.

This certification is based on information and belief formed after reasonable inquiry. To the best of my knowledge, the statements and information in this document are true, accurate, and complete as required by 62-213.420 (4) F.A.C.

If you have questions about the plan or the status of approval, please contact Mr. Danny Herrin, Manager, Environmental Compliance Strategies and Permitting, Southern Company Generation, at (205) 257-6468.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Paul Bowers". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

W. Paul Bowers
