The Department has received your letter dated March 10, 1989, and the process flow diagrams dated April 10, 1989, explaining the need for the installation of economizers in both units to reduce the flue gas temperatures to design levels. The Department is in agreement with this change in operation since it will increase the particulate collection efficiency of the electrostatic precipitators. The following will be added to the permits:

Attachment to be Added:

17. Westinghouse letter dated March 10, 1989, and diagrams.

This letter must be attached to your construction permits AC 03-145061 and AC 03-152196/PSD-FL-129, and shall become a part of the permits.

Sincerely,

Dale Twachtmann
