RE: Notification of Contract Change for Operations of the Facility
Bay County Waste-to-Energy Facility
Facility ID No. 0050031

Dear Mr. Barthelemy:

The Department received your letter on August 15, 2007, notifying us that the contract for operations of the facility will change on September 3, 2007. The new operator is listed as EnGen, a subsidiary of Merrick Industries based in Lynn Haven, Florida. If the ownership is changing hands and will affect the current Title V Air Operation Permit, No. 0050031-010-AV, then please complete and submit the appropriate form, Application for Air Permit Transfer, Form 62-210.900(7), F.A.C. In addition, I have enclosed a print-out of our air tracking system regarding the listings of the current responsible official (RO) and alternates. Please check to see if they will be current for the new operator of the facility. If the list is not going to be valid, then please complete the appropriate form, Title V Responsible Official Notification, Form 62-213.900(8), F.A.C. These forms can be found on our website at the following address:

<http://www.dep.state.fl.us/Air/forms.htm>

If there are any questions, please give Bruce Mitchell a call at 850/413-9198 or write to me at the above letterhead address.

Sincerely,

Jeffery F. Koerner, P.E.

CERTIFIED MAIL

RE: Title V Permit: 0050031-010-AV

To Whom It May Concern:

On May 16, 2007, I sent a letter to the Florida DEP stating that the Bay County Commission decided to terminate the contract with Montenay Bay LLC concerning operation of the waste-to-energy facility. The exact turnover date and new operator of the facility are listed below.

EnGen will be operating the facility as of September 3, 2007. EnGen is a subsidiary of Merrick Industries based in Lynn Haven, Florida. The facility will not be shut down during the turnover phase, and EnGen intends to continue normal operation of the facility. Of the personnel working for Montenay Bay LLC, 80 percent of the employees will continue to work at the facility under the EnGen moniker.

Ken Caine has been designated as the Facility Manager for EnGen. I, Jerome Barthelemy, have been designated as the Operations Manager. I will be also covering the duties of the Environmental, Health and Safety Manager until one is hired at a later date. Ken and I both can be reached at (850) 785-7933 before and after the transfer of operation.

**WASTE TO ENERGY
NORTH AMERICA**

Montenay Bay again thanks all local and permitting representatives for their professional and fair dealings over the years. EnGen is looking forward to continuing the environmental standards that Montenay Bay put in place as well as continuing to best minimize its impact on the environment during normal everyday operations.

If you have any questions or concerns, feel free to contact me at (850) 785-7933 ext 206.

Sincerely,
