Memo

To: Al Linero, Teresa Heron, Trina Vielhauer, and OGC File
From: Ronni Moore, Assistant General Counsel
Date: July 1, 2009 
Re: Florida Power & Light, Co.. vs. DEP; DEP Permit No. 0090006-005-AC; OGC No. 09-0604

On March 13, 2009, the Department issued its notice of intent to issue an air construction permit, permit no. 0090006-005-AC, to Florida Power & Light, Co. (FP&L) for its facility in Brevard County, Florida. FP&L requested and was granted two extensions of time to file a petition for hearing on the intent. The second extension ran through June 30, 2009.

FP&L neither requested a further extension of time nor filed a petition by close of business on June 30th. There being no further matters to consider, the Department's file in this matter is closed.

**ORDER GRANTING SECOND REQUEST FOR
EXTENSION OF TIME TO FILE PETITION FOR HEARING**

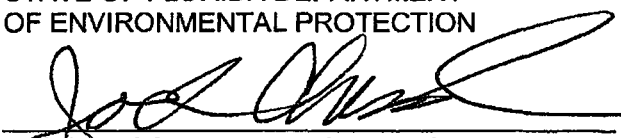

This cause has come before the State of Florida Department of Environmental Protection (Department) upon receipt of a second request made by Petitioner Florida Power & Light Co. (Petitioner), to grant an extension of time to file a petition for administrative hearing to allow time to discuss with the Department several specific permit conditions for its facility in Brevard County, Florida. Because the request shows good cause for the extension of time,

IT IS ORDERED:

The request for an extension of time to file a petition for administrative proceeding is GRANTED. Petitioner shall have until June 30, 2009 to file a petition in this matter. NO FURTHER EXTENSIONS SHALL BE GRANTED absent extenuating circumstances. Filing shall be complete upon receipt by the Office of General Counsel, Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

DONE AND ORDERED on this 10th day of June, 2009, in Tallahassee, Florida.

I'm ok with very short extension but agree- they need to work this one out with EPA and we don't want our permit held-up for that resolution for too long.

I don't see any issues with DEP that can't be discussed and resolved in a quick meeting.

They want EPA to allow them to have some time to try out the first of its class turbine (actually one turbine options of three they are considering) before actually conducting compliance tests related to the much less stringent Federal NOx limit (15 ppm). They hope to get the terms into the permit.

They have been in touch with EPA but I don't see anything happening for a long time.

We provide enough time for them to demonstrate compliance with the stringent limit (2.0 ppm).

I would give them a very limited time with no further extensions.

Or would simply not act for a couple of weeks and then deny if they don't sort out soon.

Do whatever Trina says though if she weighs in today.

Thanks.

Al.

MAY 28 2009

OFFICE OF
GENERAL COUNSEL

REQUEST FOR SECOND ENLARGEMENT OF TIME

By and through undersigned counsel, Florida Power & Light Company (FPL) hereby requests, pursuant to Florida Administrative Code Rule 62-110.106(4), a second enlargement of time, to and including July 27, 2009, in which to file a Petition for Administrative Proceedings in the above-styled matter. As good cause for granting this request, FPL states the following:

1. On or about March 13, 2009, FPL received from the Department of Environmental Protection ("Department") a "Written Notice of Intent to Issue Air Construction Permit" and accompanying "Draft Permit" (Air Permit No. 0090006-005-AC), for FPL's Cape Canaveral Energy Center (CCEC), located at 6000 North U.S. Highway 1 between Cocoa and Titusville in Brevard County, Florida.

2. Based on FPL's initial review, the Draft Permit and associated documents contain several provisions that warrant clarification or correction.

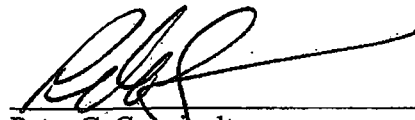

3. Representatives of FPL and the Department are discussing possible resolutions to the issues needing clarification or correction.

4. A Request for Enlargement of Time was filed by FPL on March 27, 2009. As of this date, no Order has been received granting that Request for Enlargement of Time.

5. This request is filed simply as a protective measure to avoid waiver of FPL's right to challenge certain conditions contained in the Draft Permit. Grant of this request will not prejudice either party, but will further their mutual interest and hopefully avoid the need to file a Petition and proceed to a formal administrative hearing. A representative of FPL has conferred with staff of the Department who had no objection to this request.

WHEREFORE, FPL respectfully requests that the time for filing of a Petition for Administrative Proceedings in regard to the Department's Intent to Issue Air Permit No.0090006-005-AC be formally extended to and including July 27, 2009.

RESPECTFULLY SUBMITTED this 28th day of May, 2009.

I don't expect them to ask for another extension unless they are waiting to get something from EPA concerning the NSPS issue. I don't see that issue preventing us from issuing the final permit.

Trina:

FPL will use the time to figure out whether they want to try to permit a test facility or get EPA to determine that the first phase at Canaveral would be a test facility under the control of the manufacturer (if they go with Siemens).

That's why I'm telling Ronni 60 days is O.K. but didn't want to get into those details.

I can't think of any issues they will have with the rest of the permit.

Thanks.

Ronni;

I think 60 days extension of time by FPL to file a petition on the draft air construction (non-PSD) permit to modernize the Cape Canaveral Plant will be O.K.

The draft documents are at the following link:

<http://www.dep.state.fl.us/Air/permitting/construction/fplcanaveral.htm>

FYI, FPL is also pursuing a Site Certification for the project for which they seek approval much later this year or early next year.

The air construction permitting is running well ahead of the certification even with this request.

I attached the certification schedule.

Thank you.

Al Linero.
