Dear Mr. Goodwin:

Re: Title V Permit Application for the Reliant Energy Indian River Plant
Facility ID No. **0090196**

We have reviewed the referenced application, but must deem the submission *incomplete* due to the omission of the needed Acid Rain Phase II Part Application and the Certificate of Representation for the facility. Please provide these documents at your earliest convenience. If you have any questions, please contact Tom Cascio at 850/921-9526.

Sincerely,

Scott M. Sheplak, P.E.
Administrator

BUREAU OF AIR REGULATION

**Subject: Reliant Energy Indian River, L.L.C.
Request for Revision of Federal Operating Permit**

Dear Mr. Sheplak:

In response to your letter dated March 23, 2000, Reliant Energy Indian River, L.L.C. (Reliant Energy) is submitting the enclosed application for a revision of the Federal Operating Permit (FOP) for the Indian River Plant, located near Titusville, Florida, to the Department of Environmental Protection (DEP). This application is in support of the efforts of Reliant Energy and Orlando Utilities Commission (OUC) to obtain separate FOPs for generating units owned by the respective companies and located at the Indian River Plant.

The enclosed application seeks to request a new FOP for facilities owned and operated by Reliant Energy, while a concurrent application that will be submitted by OUC will request that the existing FOP be revised to include only the OUC-owned generating units. As required by DEP regulations, Reliant Energy is providing four copies of the application for permit revision bearing original signatures.

Please contact me at 713-945-7167 if you have any questions or require additional information.

Sincerely,

Jason M. Goodwin, P.E.
