7800 US Highway One
Titusville, Florida 32780

Re: Permit No. 0090196-011-AV
Title V Air Operation Permit Renewal
Request for Additional Information

Dear Mr. Shaulis:

The Florida Department of Environmental Protection has reviewed your application for a Title V Air Operation Permit Renewal for the Indian River Plant. However, we must deem your application *incomplete*, because we need further information relative to the following item:

Please specify if any of the facility's generators or other emissions units are subject to 40 CFR 60 Subpart IIII, Standards of Performance for Stationary Compression Ignition (CI) Internal Combustion Engines (ICE), 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines, or 40 CFR 60 Subpart JJJJ, Standards of Performance for Stationary Spark Ignition (SI) Internal Combustion Engines. If applicable,

1. Please specify how the facility is complying with the applicable subpart(s).
2. Please provide the following information for each emission unit subject to the referenced subparts: in-service date, cylinder displacement, and rule applicability.

When we receive this information, we will continue processing your application. If you have any questions, please contact Project Engineer Tom Cascio at 850-921-9526. Rule 62-4.050(3), F.A.C., requires that all applications for a Department permit must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to Department requests for additional information of an engineering nature. Permit applicants are advised that Rule 62-4.055(1), F.A.C., requires applicants to respond to requests for information within 90 days, unless the applicant has requested in writing, and has been granted, additional time within 90 days.

Sincerely,

Jonathan K. Holtom, P.E., CPM
Program Administrator
Title V Section

Mr. Dennis Shaulis, General Manager
Indian River Plant
