Re: *Indian River Station*
Clean Air Interstate Rule (CAIR) permit application

Dear Mr. Holtom:

Project No. : 009 0196-008-AV

Reliant Energy submitted a CAIR permit application for the Indian River Station on June 29, 2007. We received a letter from the department on July 11, 2007 stating that the department cannot accept CAIR applications until rulemaking is concluded, a final permitting process is agreed upon with EPA, and a final application form and due-date are established. A copy of this submittal is included for your reference.

We were recently notified that the department finalized the CAIR rule. Enclosed is the state's CAIR application along with a copy of the CAIR Federal Implementation Plan (FIP) application, and the Certificate of Representation for the Indian River station.

Also for your information for the public comment period, the newspaper for the Indian River Plant area is the Florida Today.

If you have any questions or concerns regarding this matter, please feel free to contact me at (724) 597-8392 or Michelle Duncan at (724) 597-8631.

Sincerely,
Justin Paronish

Re: Clean Air Interstate Rule permit application

Dear Mr. Brisini:

I am in receipt of your application for a permit pursuant to the Clean Air Interstate Rule (CAIR). I understand there has been some confusion with the language in the federal rule and its implications in a state that is developing its own rules. The Federal Implementation Plan allows states to establish an application deadline that is shorter than 18 months from the January 2009 date. As provided in Florida's draft rule 62-213.420(a)4., Florida Administrative Code, I anticipate Florida's CAIR applications will be due sometime in 2008. While I appreciate your early submittal, Florida cannot accept CAIR applications until this rulemaking is concluded, a final permitting process is agreed upon with EPA and a final application form and due-date are established. Therefore, I am returning this application to you.

I encourage you to continue monitoring the status of this rulemaking activity. Relevant documents are posted regularly at the following website:
<http://www.dep.state.fl.us/Air/rules/regulatory.htm>.

If you have any questions, please contact me at 850/488-0114.

Sincerely,

Trina L. Vielhauer, Chief

Please type or print. The alternate designated representative may sign in lieu of the designated representative. If assistance is needed, contact the FDEP Bureau of Air Regulation at (850)488-0114.

- STEP 1** Use the plant name and ORIS Code listed on the Certificate of Representation for the plant. An ORIS code is a 4 digit number assigned by the EIA at the DOE to power plants owned by utilities. If the plant is not owned by a utility but has a 5 digit plant code (also assigned by EIA), use the plant code. If no code has been assigned or if there is uncertainty regarding what the code number is, contact EIA at (202)586-2402.

Clean Air Interstate Rule (CAIR) Program

Instructions for CAIR Part Form

(40 CFR 96.121, 96.122, 96.221, 96.222, 96.321, 96.322,
and Rule 62-296.470, F.A.C.)

The CAIR Program requires the designated representative or alternate designated representative to submit a CAIR Part form for each source with a CAIR unit. A complete Certificate of Representation must be received by EPA before the CAIR Part form is submitted to the FDEP Bureau of Air Regulation.

DEFINITIONS:

- "CAIR" – Clean Air Interstate Rule
- "CFR" - Code of Federal Regulations
- "DOE" - U.S. Department of Energy
- "EIA" - Energy Information Agency
- "F.A.C." - Florida Administrative Code
- "FDEP" - Florida Department of Environmental Protection
- "NO_x" – Nitrogen oxides
- "ORIS" - Office of Regulatory Information Systems
- "SO₂" – Sulfur dioxide

Please type or print. The alternate designated representative may sign in lieu of the designated representative. If assistance is needed, contact the FDEP Bureau of Air Regulation at (850)488-0114.

- STEP 1** Use the plant name and ORIS Code listed on the Certificate of Representation for the plant. An ORIS code is a 4 digit number assigned by the EIA at the DOE to power plants owned by utilities. If the plant is not owned by a utility but has a 5 digit plant code (also assigned by EIA), use the plant code. If no code has been assigned or if there is uncertainty regarding what the code number is, contact EIA at (202)586-2402.
- STEP 2** For column "a," identify each CAIR unit at the CAIR source by providing the appropriate unit identification numbers, consistent with the unit identification numbers entered on the Certificate of Representation and with unit identification numbers used in reporting to DOE and/or EIA. For new units without identification numbers, owners and operators may assign such numbers consistent with EIA and DOE requirements. For columns "b", "c", and "d" indicate to which CAIR program(s) each unit is subject by placing an "X" in the column(s). For columns "e" and "f," enter the expected commence commercial operation date(s) and expected monitor certification deadline(s) for new units in accordance with 40 CFR 96.102, 96.202, and 96.302; and 40 CFR 96.170(b), 96.270(b), and 96.370(b) respectively.
- STEP 3** Read the standard requirements.
- STEP 4** Read the certification statement; provide name, title, owner company name, phone, email address; sign, and date.

Submission Deadlines

For new units, an initial CAIR Part form must be submitted to the FDEP Bureau of Air Regulation 18 months before the date the unit commences operation. A CAIR Part renewal must meet the same submission deadline as the Title V permit renewal application for the source.

Submit this form to:
