**Subject:** - no subject (01JSAM4V10VW003H4L) -

Tom,

As we discussed this morning, this email is being sent to confirm the change of ORIS code for Reliant Energy's Indian River Plant in Titusville, Florida. We have recently taken action to obtain a separate ORIS code for the facility owned and operated by Reliant Energy Indian River (REIR), and Orlando Utilities Commission will retain the original ORIS code for their combustion turbine units and associated permits. Although the Certificate of Representation that was sent to DEP on April 4, 2000 cited the original ORIS code of 683, please note that the new code for REIR is 55318. If necessary, we can submit to DEP a revised CoR form with the new ORIS code.

Please contact me if you have any questions or require additional information.

Thanks,

Jason M. Goodwin, P.E.
