Tallahassee, FL 32301-8241

Dear Steve:

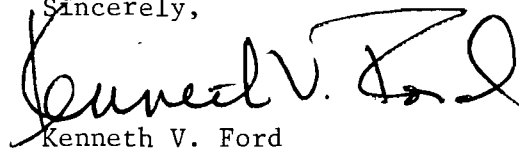

RE: INCREASE OF PERMITTED PRODUCTION - NO. 4 FERTILIZER PLANT

Reference your conversation with Mickey Martinasek after the recent PM<sub>10</sub> workshop in Tampa, enclosed are four copies of the application for modification of the No. 4 DAP plant operating permit and the attendant \$1,000 application fee.

We are requesting a higher permitted ceiling for hourly rate and annual production without increasing either actual or permitted hourly and annual emissions of fluorides or particulate matter.

If you require additional information, please call Mickey or myself at the above telephone number. If you think it would help to expedite this matter, I would be glad to schedule an appointment with Clair Fancy.

Sincerely,

Kenneth V. Ford  
Manager, Environmental Affairs

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Kenneth V. Ford  
Manager-Environmental Affairs  
W. R. Grace & Company  
P.O. Box 471  
Bartow, Florida 33830-0471

Dear Mr. Ford:

RE: Application for Permit Modification - No. 4 DAP Plant

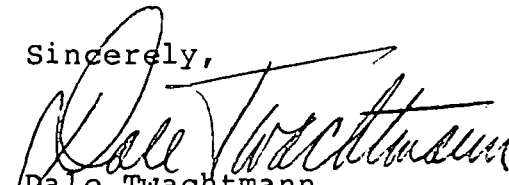

This letter confirms that a new construction permit will not be required for the proposed DAP modification since allowable emission limits will remain the same. The amendment is as stated below:

Present: 1. The maximum production rate of the plant will be 130 TPH DAP (18-46-0) and the plant shall have a maximum production of 800,000 tons DAP per calendar year.

Amended: 1. The maximum production rate of the plant shall be 165 TPH DAP (18-46-0) and the plant shall have a maximum production of 1,300,000 tons of DAP per year. 76 TPH P205

This amendment letter becomes attachment No. 3 to your construction permit AC 53-24460 so that the amended operating permit to be issued by the district office will be federally enforceable. A refund of your permit application fee is being forwarded separately.

Sincerely,

  
Dale Twachtmann  
Secretary

TO: Dale Twachtmann

FROM: Howard L. Rhodes *HLR*

SUBJECT: Amended Permit Condition for W. R. Grace's  
No. 4 DAP Plant

DATE: April 18, 1988

APR 20 1988

DER-BAQM

Attached for your approval and signature are amended permit conditions for the W. R. Grace No. 4 DAP Plant at Bartow, Florida. Since there is no increase in allowable emissions limits, the changes were made without issuing a new permit.

I recommend your approval and signature.
