Re: Notice of Completeness for Proposed Florida Power & Light (FPL) Port Everglades Next Generation Clean Energy Center Prevention of Significant Deterioration (PSD) Application

Dear Ms. Linkiewicz:

The U.S. Environmental Protection Agency has reviewed your PSD permit application that was received by the EPA on January 26, 2012, and additional documentation that was subsequently submitted for the Proposed FPL Port Everglades Next Generation Clean Energy Center, and determined that as of November 28, 2012, your application is complete. Even though your application is deemed complete, in the course of this review we may identify further information that will be essential to enable the EPA to continue processing your application, including information that may be needed to respond to public comments.

If you have any questions please contact Andrew Parks at (404) 562-8122 or [parks.andrew@epa.gov](mailto:parks.andrew@epa.gov).

Sincerely,

Gregg M. Worley  
Chief  
Air Permits Section
