Re: Wheelabrator South Broward
2011 Compliance Stack Test and RATA Notification

Dear Mr. Anderson:

Wheelabrator South Broward has contracted Clean Air Engineering to conduct this facility's 2011 annual compliance stack test and CEMS relative accuracy test audit from March 28 through March 30, 2011. Testing will commence at approximately 0800 hours on each day, with a specific daily stack test schedule available at the stack test trailer located on site should changes from the protocol schedule be necessary. All testing will be conducted according to applicable conditions contained in the facility Title V permit.

Facility COMS data will be submitted in the stack test report in lieu of Method 9 determinations.

A current stack testing protocol will be available on site upon request.

If there are any questions, please contact this office at (954) 581-6606

Sincerely,

Ganeesh Siewrattan
Operations Manager
