Attn: Mr. Al Linero

Subject: Initial Notification Form

Dear Mr. Linero:

Based on a recently completed engineering study, Lord Corporation has determined its Pompano Beach Operations is a "Major Source" for HAP emissions. This study covered a material balance for toluene. With the assistance of Mr. Randy MacDonald of USEPA, it has been further determined that the Pompano Beach Operations is subject to the Subpart FFFF MACT standard. Accordingly, an initial notification form is enclosed.

If you have any questions, please contact me at (954) 946-3400 or Mr. Robert Nipper, QEP at (814) 868-0924 Ext. 3438.

Sincerely;

Ronald L. Miller

Ronald L. Miller
Plant Manager - Pompano Beach Operations
LORD CORPORATION

[Faint, illegible text]

40 CFR 63.9(b)(2) - Initial Notification Form

Applicable Rule: 40 CFR Part 63, Subpart FFFF – National Emission Standards for Hazardous Air Pollutants for Miscellaneous Organic Chemical Manufacturing.

Please print or type the following information for each source subject to the applicable rule mentioned above.

1a. Name and Address of Facility: Lord Corporation - Pompano Beach Operations (Lord Manufacturing)
(40 CFR §63.9(b)(2)(i))

Address 1570 S.W. 13th Court City Pompano Beach

County Broward State FL Zip 33069

b. Facility ID (for example State ID or Title V) Not available at this time. Seeking a consultant's assistance to obtain.

2a. Physical Location of Facility (if different from 1a.)
(40 CFR §63.9(b)(2)(ii))

Address Same City _____

County _____ State _____ Zip _____

3. Is the facility a Major Source or Area Source? Major Area* _____
*(If area or synthetic minor, then this form does not need to be completed)
(40 CFR §63.9(b)(2)(v))

a. Do you currently have or are you in the process of obtaining a federally enforceable permit limit for HAPs? Yes* No _____
*(If yes, please provide information below)

The above mentioned consultant will help us determine our HAP limit. We plan to try for "Synthetic Minor" status through pollution prevention prior to the compliance date of November 10, 2006

4. Relevant Source Category and Compliance Date Subpart FFFF – November 10, 2006
(40 CFR §63.9(b)(2)(iii))

5. Brief description of the major source and the types of source(s) belonging to the relevant source category. (40 CFR 63.9(b)(2)(iv))

Dissolving rubber in toluene to make a rubber latex product which is used as an intermediate in the adhesive manufacture industry. Emission units include process tanks, storage tanks, process vents, and process equipment (pumps, valves, etc.). The only HAP emitted is toluene.

6. Signature

I certify that the information contained in this form to be accurate and true to the best of my knowledge.

Authorized Signature: Ronald L. Miller

Typed or Printed Name of Signatory: Ronald L. Miller

Title of Signatory: Plant Manager Date: 6/10/04

Contact Information (Phone Number/E-Mail Address): Ronald Miller (954) 946-3400 Ron_Miller@lord.com

Please mail this completed form to both your State Air Pollution Control Office and your EPA Regional Office
