Re: Crystal River Facility – Air Construction Permit 0170004-010-AC – Modular Cooling Towers

Dear Mr. Koerner:

Section III C. 2 of the above referenced construction permit requires that Progress Energy submit a certification statement within 60 days of commencing operation of the modular cooling towers. This letter is intended to meet that requirement.

Aggreko constructed and installed the modular cooling towers, Richard Reiland is the project engineer. Please see the attached letters certifying the construction and installation of the modular cooling towers.

Thank you for your help in this matter. If you have any questions, please contact Dave Meyer at (727) 820 5295.

I, the undersigned, am the responsible official as defined in Chapter 62-210.200, F.A.C., of the Title V source for which this document is being submitted. I hereby certify, based on the information and belief formed after reasonable inquiry, that the statements made and data contained in this document are true, accurate, and complete.

Sincerely,

Bernie Cumbe
Plant Manager
