AIR REGULATION**

Mr. Al Linero
Bureau of Air Regulation
Florida Department of Environmental Protection
2600 Blainstone Road
Tallahassee, FL 32399-2400

Dear Mr. Linero:

Re: Proposed Agenda for December 9 Meeting

I have attached a proposed agenda for the meeting between DEP and Florida Power Corporation (FPC) to be held on December 9. Since we will be discussing several current issues, it may be helpful to have a prepared agenda from which to work. Please review it and feel free to give me any comments or additions that you may have.

Agenda items 2) through 4) pertain to the pet coke project and its core issue, which is the applicability of the "capable of accommodating" exemption from PSD review. FPC will bring documentation supporting its claim to the exemption to the meeting. In addition, as you discussed with Scott Osbourn by telephone, discussions of the Hines facility permit and the DeBary plant gas addition application have been added to the agenda.

FPC appreciates the opportunity to meet and discuss these important permit issues. Please contact me at (813) 866-4344 if you have any questions.

Sincerely,

J. Michael Kennedy
Manager, Air Programs
