3300801 SUCRN
PUBLIC NOTICE OF INTENT TO ISSUE
TITLE V AIR OPERATION PERMIT

Title V Revised DRAFT Permit No.: 0170004-004-AV Crystal
River Plant Citrus County

The Department of Environmental Protection (permitting au-
thority) gives notice of its intent to issue a Title V air operation
permit to Florida Power Corporation for the Crystal River Plant lo-
cated west of U.S. Highway 19, north of Crystal River, south of
the Cross State Barge Canal, Citrus County. This permit incorpo-
rates the Phase I/II NOx standards into the Title IV Acid Rain Part
pursuant to Rule 62-214.360 (6), Florida Administrative Code
(F.A.C.), and the ability to combust mixtures of coal and pet-
roleum coke or coal and coal briquettes in accordance with
permits 0170004-003-AC and 0170004-005-AC. The applicant's
name and address are: Florida Power Corporation, 263 13th Ave-
nue South, St. Petersburg, Florida 33701-5511.

The permitting authority will issue the Title V PROPOSED Per-
mit, and subsequent Title V FINAL Permit, in accordance with
the conditions of the Title V DRAFT Permit unless a response re-
ceived in accordance with the following procedures results in
a different decision or significant change of terms or conditions.

The permitting authority will accept written comments con-
cerning the proposed Title V DRAFT Permit issuance action for a
period of 30 (thirty) days from the date of publication of this No-
tice. Written comments should be provided to the Depart-
ment's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Sta-
tion # 5505, Tallahassee, Florida 32399-2400. Any written com-
ments shall be made available for public inspection. If written
comments received result in a significant change in this Revised
DRAFT Permit, the permitting authority shall issue another Re-
vised DRAFT Permit and require, if applicable, another Public
Notice.

A person whose substantial interests are affected by the pro-
posed permitting decision may petition for an administrative
hearing in accordance with Sections 120.569 and 120.57 of the
Florida Statutes (F.S.). The petition must contain the information
set forth below and must be filed (received) in Office of Gen-
eral Counsel of the Department of Environmental Protection,
3900 Commonwealth Boulevard, Mail Station # 35, Tallahassee,
Florida 32399-3000.

(Telephone: 850/488-9730; Fax: 850/487-4938). Petitions filed
by any persons other than those entitled to written notice under
Section 120.60 (3), F.S., must be filed within fourteen days of
publication of the public notice or within fourteen days of re-
ceipt of the notice of intent, whichever occurs first. Under Sec-
tion 120.60 (3), F.S., however, any person who asked the permit-
ting authority for notice of agency action may file a petition
within fourteen days of receipt of that notice, regardless of the
date of publication. A petitioner shall mail a copy of the peti-
tion to the applicant at the address indicated above, at the
time of filing. The failure of any person to file a petition within the
applicable time period shall constitute a waiver of that person's
right to request an administrative determination (hearing) under
Sections 120.569 and 120.57, F.S., or to intervene in this proceed-
ing and participate as a party to it. Any subsequent intervention
will be only at the approval of the presiding officer upon the fil-
ing of a motion in compliance with Rule 28-106.25, F.A.C.

A petition that disputes the material facts on which the per-
mitting authority's action is based must contain the following in-
formation:

(a) The name and address of each agency affected and
each agency's file or identification number, if known;
(b) The name, address and telephone number of the peti-
tioner, name address and telephone number of the petitioner's
representative, if any, which shall be the address for service pur-
poses during the course of the proceeding; and an explanation
of how petitioner's substantial rights will be affected by the
agency determination;

(c) A statement of how and when the petitioner received
notice of the agency action or proposed action;

(d) A statement of all disputed issues of material fact. If there
are none, the petition must so state;

(e) A concise statement of the ultimate facts alleged, as
well as the rules and statutes which entitle the petitioner to re-
lief;

(f) A statement of the specific rules or statutes the petitioner
contends require reversal or modification of the agency's pro-
posed action; and,

(g) A statement of the relief sought by the petitioner, stating
precisely the action petitioner wishes the agency to take with
respect to the agency's proposed action.

A petition that does not dispute the material facts upon
which the permitting authority's action is based shall state that
no such facts are in dispute and otherwise shall contain the
same information as set forth above, as required by Rule 28-
106.301, F.A.C.

Because the administrative hearing process is designed to
formulate final agency action, the filing of a petition means that
the permitting authority's final action may be different from the
position taken by it in this notice of intent. Persons whose sub-
stantial interests will be affected by any such final decision of
the permitting authority on the application have the right to peti-
tion to become a party to the proceeding, in accordance with
the requirements set forth above.

Mediation is not available for this proceeding.

In addition to the above, pursuant to 42 United States Code
(U.S.C.) Section 7661 d (b) (2), any person may petition the Ad-
ministrator of the EPA within 60 (sixty) days of the expiration of
the Administrator's 45 (forty-five) day review period as estab-
lished at 42 U.S.C. Section 7661 d (b) (1), to object to the issu-
ance of any permit. Any petition shall be based only on objec-
tions to the permit that were raised with reasonable specificity
during the 30 (thirty) day public comment period provided in
this notice, unless the petitioner demonstrates to the Administra-
tor of the EPA that it was impracticable to raise such objections
within the comment period or unless the grounds for such ob-
jection arose after the comment period. Filing of a petition with
the Administrator of the EPA does not stay the effective date of
any permit properly issued pursuant to the provisions of Chapter
62-213, F.A.C. Petitions filed with the Administrator of EPA must
meet the requirements of 42 U.S.C. Section 7661 d (b) (2) and
must be filed with the Administrator of the EPA at: U.S. EPA, 401
M Street, S.W., Washington, D.C. 20460.

A complete project file is available for public inspection dur-
ing normal business hours, 8:00 a.m. to 5:00 p.m., Monday
through Friday, except legal holidays at:

Permitting Authority: Affected District:
Department of Environmental Protection
Bureau of Air Regulation
111 South Magnolia Drive, Suite 4
Tallahassee, Florida 32301
Telephone: 850/488-0114
Fax: 850/922-6979
Southwest District Office
4807 Laurel Fair Circle
Tampa, Florida 33619
Telephone: 813/744-6100
Fax: 813/744-6084

The complete project file includes the DRAFT Permit, the ap-
plication, and the information submitted by the responsible offi-
cial, exclusive of confidential records under Section 403.111, F.S.
Interested persons may contact Scott M. Sheplek, P.E., at the
above address, or call 850/921-9532, for additional information.

day, August 1, 1999.

THE STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION

RECEIVED

AUG 03 1999

In the Matter of an
Application for Permit by:

OGC CASE NO. 99- BUREAU OF AIR REGULATION
FDEP Revised Draft Permit No.: 0170004-004-AV

Florida Power Corporation
Crystal River, Citrus County, Florida

REQUEST FOR ENLARGEMENT OF TIME

By and through undersigned counsel, Florida Power Corporation (FPC) hereby requests, pursuant to Florida Administrative Code Rule 62-110.106(4), an enlargement of time, to and including October 1, 1999, in which to file a Petition for Administrative Proceedings in the above-styled matter. As good cause for granting this request, FPC states the following:

1. On or about October 9, 1997, FPC received from the Department of Environmental Protection (Department) an initial "Intent to Issue Title V Air Operation Permit" (Draft Permit No. 0170004-004-AV) for the FPC Crystal River Plant located in Citrus County, Florida.
2. On or about October 5, 1998, FPC received from the Department an "Intent to Issue Title V Air Operation Permit" (**REVISED** Draft Permit No.0170004-004-AV) for the FPC Crystal River Plant.
3. On or about July 27, 1999, FPC received from the Department an "Intent to Issue Title V Air Operation Permit" (**second REVISED** Draft Permit No.0170004-004-AV) for the FPC Crystal River Plant.
4. FPC understands that DEP's issuance of the second Revised Draft effectively moots the first Revised Draft, and therefore no further actions, including extensions of time, are necessary

to preserve its rights in relation to the first Revised Draft. In reliance on this understanding, FPC hereby files this Request for Extension of Time on the second Revised Draft permit. Nonetheless, insofar as the initial Draft Title V permit or the first Revised Draft Title V permit may be determined to still be in effect, FPC respectfully requests that this Request for Extension of Time apply to the initial, first Revised, and second Revised Draft Title V permits.

5. Based on FPC's review, the second Revised Draft Permit and associated documents contain several provisions that warrant clarification or correction.

6. This request is filed simply as a protective measure to avoid waiver of FPC's right to challenge certain conditions contained in the second Revised Draft Title V Permit. Grant of this request will not prejudice either party, but will further their mutual interest and hopefully avoid the need to file a petition and proceed to a formal administrative hearing.

WHEREFORE, FPC respectfully requests that the time for filing of a Petition for Administrative Proceedings in regard to the Department's Intent to Issue Title V Air Operation Permit for second Revised Draft Permit No.0170004-004-AV be formally extended to and including October 1, 1999.

Respectfully submitted this 2 day of August, 1999.

Subject: Crystal River Title V Comments

Ed,

We've reviewed the latest draft of the Crystal River Title V permit. It's in pretty good shape, and we just have a few comments. The public notice is scheduled to be published on Sunday, August 1.

Here are the comments:

1) Statement of basis: For the use of CEMs for periodic monitoring language, please add the specific pollutants for which this would apply - opacity, SO₂, and NO_x.

Averaging times will be an issue. For opacity, we request a 6-minute block average. For SO₂, a 24-hour avg. because these are coal-fired units. Gulf Power's Crist plant uses CEMs for compliance based on a 24-hour average. For NO_x, Units 1 and 2 have only the Title IV annual average NO_x limit. For Units 4 and 5, the NSPS Subpart D and Title IV apply. I believe this results in a 30-day rolling average for NO_x for Units 4 and 5.

2) Condition B.17 - Ambient Monitoring. Please remove the word "total" from the term "total Suspended particulate". We no longer monitor for TSP, and the site certification uses the term "suspended particulate". If we use that term in the Title V permit, it will conform with the site cert. and it allows for changing standards (we are currently monitoring PM_{2.5} at the DEP's request).

3) Subsection F - Emissions Unit Description: Please change "FFSG Units 1, 2, and 3" to "FFSG Units 1 and 2 and nuclear Unit 3". As you know, Unit 3 is the nuclear unit at the site.

4) Excess Emissions: Units 1 and 2 are allowed excess emissions during sootblowing and load changing. Please add language reflecting this for those units.

I'll be out of the office from August 2 through 9. If you have any questions or comments, please contact Scott Osbourn at (727) 826-4258. Thanks very much, Ed.

Mike Kennedy
