RE: Comments of Draft/Proposed Air Permit Projects
Florida Power Corporation dba Progress Energy Florida, Inc.

Dear Ms. Vielhauer:

Please find below the comment on the Draft/Proposed Air Permit Projects regarding the inclusion of the provisions and requirements of the Clean Air Interstate Rule (CAIR) into the following Air Permit Projects and the associated facilities.

Project Permit No.	Site Facility Name	Project Permit No.	Site Facility Name

Comment: On July 11, 2008, the D.C. Circuit issued an opinion vacating CAIR. Accordingly, Florida Power Corporation dba Progress Energy Florida, Inc. (PEF) requests that the CAIR Part for each of the facilities listed above with their respective project permit numbers not be submitted by the Florida Department of Environmental Protection (FDEP) to the EPA in proposed form, and not finalized at this time. Once the D.C. Circuit Court's ruling is final, PEF requests that this permit revision process be terminated, either by withdrawing the draft permit, returning our application or treating it as withdrawn. In the event the D.C. Circuit Court's ruling

is reheard or overturned on appeal, PEF and the FDEP can discuss how best to continue the permit-revision process, and whether the Statement of Basis or Permit requires additional language.

Thank you for your assistance in this matter. In addition, if you have any questions or would like the comment on the Draft/Proposed Air Permits submitted in an alternative format, please contact me at (727) 820-5962 or at Chris.Bradley@pgnmail.com.

Please keep a copy of these comments for each of the Progress Energy projects you have worked on. This is the comment that will allow us to take more than the rule required 30 days to send the Proposed CAIR permit to EPA.
