Title V Revised DRAFT Permit No.: 0170004-004-AV Crystal
River Plant Citrus County

The Department of Environmental Protection (permitting au-
thority) gives notice of its intent to issue a Title V air operation
permit to Florida Power Corporation for the Crystal River Plant lo-
cated west of U.S. Highway 19, north of Crystal River, south of
the Cross State Barge Canal, Citrus County. This permit incorpo-
rates the Phase I/II NOx standards into the Title IV Acid Rain Part
pursuant to Rule 62.214.360 (6), Florida Administrative Code
(F.A.C.), and the ability to combust mixtures of coal and pet-
roleum coke or coal and coal briquettes in accordance with
permits 0170004-003-AC and 0170004-005-AC. The applicant's
name and address are: Florida Power Corporation, 263 13th Ave-
nue South, St. Petersburg, Florida 33701-5511.

The permitting authority will issue the Title V PROPOSED Per-
mit, and subsequent Title V FINAL Permit, in accordance with
the conditions of the Title V DRAFT Permit unless a response re-
ceived in accordance with the following procedures results in
a different decision or significant change of terms or conditions.

The permitting authority will accept written comments con-
cerning the proposed Title V DRAFT Permit issuance action for a
period of 30 (thirty) days from the date of publication of this No-
tice. Written comments should be provided to the Depart-
ment's Bureau of Air Regulation, 2600 Blair Stone Road, Mail Sta-
tion # 5505, Tallahassee, Florida 32399-2400. Any written com-
ments shall be made available for public inspection. If written
comments received result in a significant change in this Revised
DRAFT Permit, the permitting authority shall issue another Re-
vised DRAFT Permit and require, if applicable, another Public
Notice.

A person whose substantial interests are affected by the pro-
posed permitting decision may petition for an administrative
hearing in accordance with Sections 120.569 and 120.57 of the
Florida Statutes (F.S.). The petition must contain the information
set forth below and must be filed (received) in Office of Gen-
eral Counsel of the Department of Environmental Protection,
3900 Commonwealth Boulevard, Mail Station # 35, Tallahassee,
Florida 32399-3000.

(Telephone: 850/488-9730; Fax: 850/487-4938). Petitions filed
by any persons other than those entitled to written notice under
Section 120.60 (3), F.S., must be filed within fourteen days of
publication of the public notice or within fourteen days of re-
ceipt of the notice of intent, whichever occurs first. Under Sec-
tion 120.60 (3), F.S., however, any person who asked the permit-
ting authority for notice of agency action may file a petition
within fourteen days of receipt of that notice, regardless of the
date of publication. A petitioner shall mail a copy of the peti-
tion to the applicant at the address indicated above, at the
time of filing. The failure of any person to file a petition within the
applicable time period shall constitute a waiver of that person's
right to request an administrative determination (hearing) under
Sections 120.569 and 120.57, F.S., or to intervene in this proceed-
ing and participate as a party to it. Any subsequent intervention
will be only at the approval of the presiding officer upon the fil-
ing of a motion in compliance with Rule 28-106.25, F.A.C.

A petition that disputes the material facts on which the per-
mitting authority's action is based must contain the following in-
formation:

(a) The name and address of each agency affected and
each agency's file or identification number, if known;

(b) The name, address and telephone number of the peti-
tioner; name address and telephone number of the petitioner's
representative, if any, which shall be the address for service pur-
poses during the course of the proceeding; and an explanation
of how petitioner's substantial rights will be affected by the
agency determination;

(c) A statement of how and when the petitioner received
notice of the agency action or proposed action;

(d) A statement of all disputed issues of material fact. If there
are none, the petition must so state;

(e) A concise statement of the ultimate facts alleged, as
well as the rules and statutes which entitle the petitioner to re-
lief;

(f) A statement of the specific rules or statutes the petitioner
contends require reversal or modification of the agency's pro-
posed action; and,

(g) A statement of the relief sought by the petitioner, stating
precisely the action petitioner wishes the agency to take with
respect to the agency's proposed action.

A petition that does not dispute the material facts upon
which the permitting authority's action is based shall state that
no such facts are in dispute and otherwise shall contain the
same information as set forth above, as required by Rule 28-
106.301, F.A.C.

Because the administrative hearing process is designed to
formulate final agency action, the filing of a petition means that
the permitting authority's final action may be different from the
position taken by it in this notice of intent. Persons whose sub-
stantial interests will be affected by any such final decision of
the permitting authority on the application have the right to pe-
tition to become a party to the proceeding in accordance
with the requirements set forth above.

Mediation is not available for this proceeding.

In addition to the above, pursuant to 42 United States Code
(U.S.C.) Section 7661 d (b) (2), any person may petition the Ad-
ministrator of the EPA within 60 (sixty) days of the expiration of
the Administrator's 45 (forty-five) day review period as estab-
lished at 42 U.S.C. Section 7661 d (b) (1), to object to the is-
surance of any permit. Any petition shall be based only on objec-
tions to the permit that were raised with reasonable specificity
during the 30 (thirty) day public comment period provided in
this notice, unless the petitioner demonstrates to the Administra-
tor of the EPA that it was impracticable to raise such objections
within the comment period or unless the grounds for such ob-
jection arose after the comment period. Filing of a petition with
the Administrator of the EPA does not stay the effective date of
any permit properly issued pursuant to the provisions of Chapter
62-213, F.A.C. Petitions filed with the Administrator of EPA must
meet the requirements of 42 U.S.C. Section 7661 d (b) (2) and
must be filed with the Administrator of the EPA at: U.S. EPA, 401
M Street, S.W., Washington, D.C. 20460.

A complete project file is available for public inspection dur-
ing normal business hours, 8:00 a.m. to 5:00 p.m., Monday
