

P.E. CERTIFICATION STATEMENT

PERMITTEE

Florida Power Corporation dba Progress Energy, Florida Inc.
Crystal River Power Plant
299 First Avenue North
St. Petersburg, Florida 33701

Permit No. 0170004-034-AC
Facility ID No. 0170004
Portable Concrete Batch Plant
Citrus County, Florida

PROJECT DESCRIPTION

The main purpose of this project is to issue an air construction permit for the construction/installation of a 20,000 cubic yard per year portable concrete batch plant, and additional ancillary equipment (diesel pumps and air compressors) support current and future maintenance and repair activities at the Crystal River facility. The proposed concrete batch plant will be provided by outside vendors on an as-needed basis. This project does not increase emissions above the PSD threshold significant rate levels or is above 5 tons per year for any pollutant. The construction permit was issued concurrently with draft/proposed Title V permit revision No. 0170004-035-AV in order to allow for a combined public notice.

I HEREBY CERTIFY that the air pollution control engineering features described in the above referenced application and subject to the proposed permit conditions provide reasonable assurance of compliance with applicable provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Chapters 62-4 and 62-204 through 62-297. However, I have not evaluated and I do not certify aspects of the proposal outside of my area of expertise (including, but not limited to, the electrical, mechanical, structural, hydrological, geological, and meteorological features).

This review was conducted by Teresa Heron under my responsible supervision.
