**RE:** Title V Responsible Official Notification  
Crystal River Power Plant  
Duke Energy Florida, Inc.  
Facility ID No: 0170004

Good morning Jeff -

As a result of recent organizational changes within Duke Energy Florida, Inc. (DEF) the attached letter is a request to both add and "inactivate" several "Responsible Officials" in ARMS for the Crystal River Power Plant. The request for "inactivation" is being submitted because the individuals, other than those individuals listed in the attached *Title V Responsible Official Notification Form*, are no longer associated with the operation of the facility. As a result of the completion and submission of this notification form DEF is requesting that only the individuals listed in this form be retained in the ARMS database as "active" responsible officials for this facility.

If you or your staff have any questions regarding the request please do not hesitate to contact me.
