Re: Final National Emission Standards for Hazardous Air Pollutants (NESHAP) - Site Remediation

Dear Mr. Loy:

The 112(j) notification that was submitted last year for the Metal Industries facility in Crystal River indicated that the facility would be subject to the NESHAP (40 CFR 63 Subpart GGGGG) for Site Remediation. You may be interested in knowing that the USEPA published the final NESHAP regulation for this source category in the Federal Register on October 8, 2003. Therefore, 112(j) requirements no longer apply to site remediation activities.

If you are interested in reading the final standards, the NESHAP and a Fact Sheet explaining the standards may be accessed through the USEPA website at <http://www.epa.gov/ttn/atw/siterm/sitermpg.html>. If you do not have access to the Internet, and would like to receive a paper copy of the final standards in the mail, please contact Mr. Bobby Bull at (850) 921-9585 or Robert.Bull@dep.state.fl.us.

"Existing" affected sources must be in compliance with Subpart GGGGG standards by October 9, 2006. For the purposes of Subpart GGGGG, affected sources are "existing" if construction or reconstruction of the affected source commenced before July 30, 2002. For compliance dates for "new" affected sources, please refer to section 63.7883 of the standards.

Since the submitted 112(j) notification also indicated that Metal Industries would be subject to Subpart DDDDD, I/C/I Boilers and Process Heaters, the facility may still be required to submit a 112(j) MACT Title V permit revision application by April 28, 2004 unless this proposed subpart is final by then.

Though it has not yet appeared in the federal register, the final Subpart MMMM, Surface Coating of Miscellaneous Metal Parts and Products, has been signed. Therefore, 112(j) requirements also no longer apply to these surface coating activities.

If you have any questions concerning this information, please contact me at (850)921-9534 or Cindy.Phillips@dep.state.fl.us.

Sincerely,

Cindy L. Phillips, P.E.,
Bureau of Air Regulation

BUREAU OF AIR REGULATION

Dear Ms. Phillips,

Metal Industries, Inc. is providing the following 112(j) Notification Information for three facilities and reserves the right to modification or withdrawal of 112(j) Notification Information after reviewing final emission standards or exemptions to determine applicability with the Maximum Achievable Control Technology Standards.

Permit 119007-002AV

1. Name: Metal Industries, Inc. (J. T. Walker Industries, Inc. - parent company)
Address: 400 West Walker Avenue, Bushnell, Florida 33513
Description: This facility manufactures air distribution products, and includes pretreatment wash lines, spray paint lines, electrodeposition paint lines, and equipment cleanup processes.
2. Relevant MACT: Miscellaneous Metal Parts (Subpart MMMM) and Industrial, Commercial, and Institutional Boilers (Subpart DDDD). D
3. Emission Units: This facility has heaters, spray paint booths, electrodeposition tanks, furnaces, ovens, equipment cleaning, pretreatment wash line, and stacks that are relevant to Miscellaneous Metal Parts, and Industrial, Commercial, and Institutional Boilers.
4. Section 112(g): This facility has no processes or equipment affected by section 112(g).

Permit 0170019-003AV

1. Name: Metal Industries, Inc. (J. T. Walker Industries, Inc. - parent company)
Address: 8409 West Crystal Street, Crystal River, Florida 34428
Description: This facility manufactures air distribution products plus operates groundwater recovery system and includes pretreatment wash line, spray paint line, equipment cleanup, and air stripper processes.
2. Relevant MACT: Miscellaneous Metal Parts (Subpart MMMM), Site Remediation (Subpart GGGG), and Industrial, Commercial, and Institutional Boilers (Subpart DDDD). D
3. Emission Units: This facility has heaters, spray paint booth, ovens, equipment cleaning, pretreatment wash line, air strippers, and stacks that are relevant to Miscellaneous Metal Parts, Site Remediation, and Industrial, Commercial, and Institutional Boilers.
4. Section 112(g): This facility has no processes or equipment affected by section 112(g).

Permit 1030140-001AV

1. Name: Metal Industries, Inc. (J. T. Walker Industries, Inc. - parent company)
Address: 955 Live Oak Street, Tarpon Springs, Florida 34689
Description: This facility manufactures air distribution products and includes pretreatment wash line, spray paint lines, and equipment cleanup processes.
2. Relevant MACT: Miscellaneous Metal Parts (Subpart MMMM), and Industrial, Commercial, and Institutional Boilers (Subpart DDDD). D
3. Emission Units: This facility has heaters, spray paint booths, ovens, equipment cleaning, pretreatment wash line, and stacks that are relevant to Miscellaneous Metal Parts, and Industrial, Commercial, and Institutional Boilers.
4. Section 112(g): This facility has no processes or equipment affected by section 112(g).

We appreciate your helpful assistance during the processing of our notifications. If there are any concerns, please contact Howard Loy by phone at 727 424-7501.

Sincerely,

Howard Loy
