petition must contain
the information set
forth below and must
be filed with (received
by) the Department's

Office of General
Counsel of the
Department of

petition within 14
days of receipt of that
notice, regardless of
the date of
publication. A
petitioner shall mail a
copy of the petition to
the applicant at the
address indicated
above, at the time of
filing. The failure of
any person to file a
petition within the
appropriate time
period shall
constitute a waiver of
that person's right to
request an
administrative
determination
(hearing) under
Sections 120.569 and
120.57, F.S., or to
intervene in the
proceeding and
participate as a party

based must contain

each agency affected
and each agency's
file or identification
number, if known; (b)

petitioner contends
require reversal or
modification of the
agency's proposed
action, including an
explanation of how
the alleged facts

(g) A statement of the

Authority's final
action may be
different from the
position taken by it in
this Public Notice of
Intent to Issue Air

whose substantial
interests will be
affected by any such
final decision of the
Permitting Authority
on the application

petition to become a

EPA Review: EPA
has agreed to threat
the Draft/Proposed
Title V air operation
Permit. Persons
Title V air operation
permit and to
perform its 45-day
review provided by
the law and
regulations
concurrently with the
public comment
period. Although
EPA's 45-day review
period will be
performed
concurrently with the
public comment
period, the deadline
for submitting a
citizen petition to
object to the EPA
Administrator will be
determined as if
EPA's 45-day review
period is performed
after the public
comment period has
ended. The Final Title
V air operation permit
will be issued after
the conclusion of the
45-day EPA review
period so long as no
adverse comments
are received that
results in a different
decision or significant
change of terms or
conditions. The
status regarding
EPA's 45-day review
of this project and the
deadline for
submitting a citizen
petition can be found

States Code (U.S.C.)
Section 7661d(b)(2),

Administrator of the
EPA within 60 days of
the expiration of the
Administrator's
45-day review period
as established at 42
U.S.C. Section
7661d(b)(1), to object
to the issuance of any
Title V air operation
permit. Any petition
shall be based only
on objections to the
Permit that were
raised with
reasonable specificity
during the 30 day
public comment
period provided in
the Public Notice,
unless the petitioner
demonstrates to the
Administrator of the
EPA that it was
impracticable to raise
such objections
within the comment
period or unless the
grounds for such
objection arose after
the comment period.
