TITLE V AIR PERMIT # 0250003-10-AV
Minor Air Construction Permit
Application Number: 2961-1
Project Number: 0250003-015-AC**

Dear Mr. Cascio:

On July 17, 2011 FPL published in the Miami Herald a "Public Notice of Intent to Issue an Air Permit" to FPL's Turkey Point Nuclear Plant, for the construction project that will replace the two emergency diesel engines for the instrument air compressors at the site. Enclosed is a copy of the "Public Notice" proof of publication document per the "Written Notice of Intent to Issue Air Permit".

If you have any questions concerning this notice, please call me at (305) 246-6807.

Sincerely,

A handwritten signature in black ink, appearing to read 'Renee Pfeilsticker', written over a horizontal line.

**PUBLIC NOTICE OF INTENT
TO ISSUE AIR PERMIT**
Florida Department of
Environmental Protection
Office of Air Permitting and
Compliance
Draft Minor Source Air
Construction Permit
Project No. 0250003-015-AC
Florida Power and Light Company,
Turkey Point Nuclear Plant
Miami-Dade County, Florida

Applicant: The applicant for
this project is Florida Power
and Light Company. The
applicant's authorized
representative and mailing
address are: Gabriel Mendoza,
Chemistry Manager, Florida
Power and Light Company,
Turkey Point Nuclear Plant,
700 Universe Boulevard, Juno
Beach, Florida 33408.

Facility Location: Florida
Power and Light Company
operates the existing Turkey
Point Nuclear Plant, which is
located in Miami-Dade County,
10 miles east of Florida City on
SW 344th Street, in Florida
City, Florida.

Project: This project authorizes
replacement of two emergency
diesel engines for instrument
air compressors at the facility.
In the event station power is
lost, Turkey Point Units 003
and 004 (nuclear reactors)
have emergency generators
(Unit 005) that supply critical
systems including electric
power for the instrument air
compressors. In the event that
the emergency generators
cannot supply electric power
for instrument air, the diesel
engines provide backup power.

to instrument air compressors
(i.e., the new instrument air
compressor diesel engines are
a backup to a backup system).
As a result of this project,
emission rates of nitrogen
oxides, volatile organic
compounds and particulate
matter are reduced, while
emission of sulfur dioxide and
carbon monoxide remain
approximately the same.

Permitting Authority:
Applications for air
construction permits are
subject to review in
accordance with the provisions
of Chapter 403, Florida
Statutes (F.S.) and Chapters
62-4, 62-210 and 62-212 of the
Florida Administrative Code
(F.A.C.). The proposed project
is not exempt from air
permitting requirements and
an air permit is required to
perform the proposed work.
The Permitting Authority
responsible for making a
permit determination for this
project is the Department of
Environmental Protection's
Office of Air Permitting and
Compliance in Tallahassee.
The Permitting Authority's
physical address is: 111 South
Magnolia Drive, Suite #4,
Tallahassee, Florida. The
Permitting Authority's mailing
address is: 2600 Blair Stone
Road, MS #5505, Tallahassee,
Florida 32399-2400. The
Permitting Authority's
telephone number is
850/717-9000.

Project File: A complete
project file is available for
public inspection during the
normal business hours of 8:00
a.m. to 5:00 p.m., Monday
through Friday (except legal
holidays) at the physical
address indicated above for
the Permitting Authority. The
complete project file includes
the draft permit, the Technical
Evaluation and Preliminary
Determination, the application
and information submitted by
the applicant (exclusive of
confidential records under
Section 403.111, F.S.).
Interested persons may
contact the Permitting
Authority's engineer for
additional information at the
address and phone number
listed above. In addition,
electronic copies of these
documents are available on the
following web site:
[http://www.dep.state.fl.us/
air/mission/apds/default.
asp](http://www.dep.state.fl.us/air/mission/apds/default.asp).

**Notice of Intent to Issue Air
Permit:** The Permitting
Authority gives notice of its
intent to issue an air
construction permit to the
applicant for the project
described above. The applicant
has provided reasonable
assurance that operation of
proposed equipment will not
adversely impact air quality
and that the applicant will comply
with all appropriate provisions
of Chapters 62-4, 62-204,
62-210, 62-212, 62-296 and
62-297, F.A.C. The Permitting
Authority will issue a final
permit in accordance with the
provisions of the permit
unless a timely petition for an
administrative hearing is filed
under Sections 120.569 and
120.57, F.S. or unless public
comment received in
accordance with this notice
results in a different decision or
a significant change of terms or
conditions.

Comments: The Permitting
Authority will accept written
comments concerning the draft
permit for a period of 14 days
from the date of publication of
this Public Notice. Written
comments must be received by
the Permitting Authority by
close of business (5:00 p.m.) on
or before the end of the 14-day
period. If written comments
received result in a significant
change to the draft permit, the
Permitting Authority shall
revise the draft permit and
require, if applicable, another
Public Notice. All comments
filed will be made available for
public inspection.

Petitions: A person whose
substantial interests are
affected by the proposed
permitting decision may
petition for an administrative
hearing in accordance with
Sections 120.569 and 120.57,
F.S. The petition must contain
the information set forth below
and must be filed with
(received by) the Department's
Agency Clerk in the Office of
General Counsel of the
Department of Environmental
Protection at 3900
Commonwealth Boulevard,
Mail Station # 35, Tallahassee,
Florida 32399-3000
(Telephone: 850/245-2241).
Petitions filed by any persons
other than those entitled to
written notice under Section
120.60(3), F.S. must be filed
within 14 days of publication of
this Public Notice or receipt of
a written notice, whichever
occurs first. Under Section
120.60(3), F.S., however, any
person who asked the
Permitting Authority for notice
of agency action may file a
petition within 14 days of
receipt of that notice,
regardless of the date of
publication. A petitioner shall
mail a copy of the petition to
the applicant at the address
indicated above, at the time of
filing. The failure of any person
to file a petition within the

appropriate time period shall
constitute a waiver of that
person's right to request an
administrative determination
(hearing) under Sections
120.569 and 120.57, F.S., or to
intervene in this proceeding
and participate as a party to it.
Any subsequent intervention
(in a proceeding initiated by
another party) will be only at
the approval of the presiding
officer upon the filing of a
motion in compliance with Rule
28-106.205, F.A.C. A petition
that disputes the material facts
on which the Permitting
Authority's action is based
must contain the following
information: (a) The name and
address of each agency
affected and each agency's file
or identification number, if
known; (b) The name, address
and telephone number of the
petitioner; the name address
and telephone number of the
petitioner's representative, if
any, which shall be the address
for service purposes during the
course of the proceeding; and
an explanation of how the
petitioner's substantial rights
will be affected by the agency
determination; (c) A statement
of when and how the petitioner
received notice of the agency
action or proposed action; (d)
A statement of all disputed
issues of material fact. If there
are none, the petition must so
indicate; (e) A concise
statement of the ultimate facts
alleged, including the specific
facts the petitioner contends
warrant reversal or
modification of the agency's
proposed action; (f) A
statement of the specific rules
or statutes the petitioner
contends require reversal or
modification of the agency's
proposed action including an
explanation of how the alleged
facts relate to the specific rules
or statutes; and, (g) A
statement of the relief sought
by the petitioner, stating
precisely the action the
petitioner wishes the agency to
take with respect to the
agency's proposed action. A
petition that does not dispute
the material facts upon which
the Permitting Authority's
action is based shall state that
no such facts are in dispute
and otherwise shall contain the
same information as set forth
above, as required by Rule
28-106.301, F.A.C.

Because the administrative
hearing process is designed to
formulate final agency action,
the filing of a petition means
that the Permitting Authority's
final action may be different
from the position taken by it in
this Public Notice of Intent to
Issue Air Permit. Persons
whose substantial interests will
be affected by any such final
decision of the Permitting
Authority on the application
have the right to petition to
become a party to the
proceeding, in accordance with
the requirements set forth
above.

Mediation: Mediation is not
available for this proceeding.
