Tallahassee, FL 32399-2400

RE: Florida Acid Rain Program

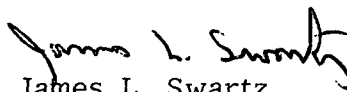

Dear Mr. Brown:

Based on our understanding of the regulations the City of Homestead's Power Plant is not a source subject to the Acid Rain Program for the following reasons:

1. The generating units are all 7.5 MW or smaller, and are driven by internal combustion engines.
2. The fuel burned is natural gas and diesel fuel with sulphur content of 0.05% or less.

Feel free to call me, John Dorn, Plant Manager, at (305)247-1801 Ext. 351 if you have any questions.

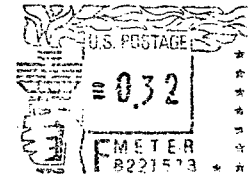

Thank you,

James L. Swartz
Utilities Director
