RE: Florida Acid Rain Program

Ref: Letter dated Dec 6, 1995 Jim Swartz to John Brown

Dear Mr. Brown:

As per our phone conversation last week we feel that, in addition to the reasons given in the referenced letter, the Homestead Power Plant is not a source subject to the Acid Rain Program because it is an existing plant, i.e. the newest unit was installed in 1980.

Also, I spoke to Mr. Robert Miller at EPA when we received the EPA Guide for Utilities and Other Electricity Generators which listed Homestead in Table 3 and he agreed that Homestead Power Plant was incorrectly listed.

Please feel free to call me at (305)247-1801 ext 351 if you have any additional questions.

Sincerely,

John L. Dorn  
Plant Manager
