Mr. John W. Renfrow, P.E.  
Environmental Resources Management  
Suite 1310  
111 NW 1st Street  
Miami, FL 33128-1971

Dear Mr. Renfrow:

Rinker expects receipt of all applicable materials substitution permits in the next few weeks. There has been much constructive dialogue between DERM and Rinker, and the assistance of your department in resolving the numerous hurdles is greatly appreciated. Construction of the materials storage building will begin soon with anticipated completion by mid December. Engineering for the dryer conversion has been completed and equipment is being ordered. We are moving to complete this project as quickly as possible. However, due to the delay in obtaining our permits we anticipate requiring an extension to process soils in the kilns beyond December 1991. When all equipment supplies confirm delivery dates we will advise you of a firm completion date.

If you have any questions please let me know. Again, your help and cooperation is greatly appreciated.

Very truly,

*James S. Jenkins III*

## State of Florida Department of Environmental Regulation Notice of Intent to Issue

The Department of Environmental Regulation gives notice of its intent to issue a permit (AC 13-187599) to Rinker Materials Corporation, Post Office Box 850679, Miami, Florida 33265-0679, to construct (modify) the existing stone dryer by the addition of low nitrogen oxides burners, baghouses, and a fume incinerator, so that it can decontaminate up to 40 TPD of soils containing petroleum fuels and lubricants. This dryer is located in the Portland cement manufacturing plant at 1200 Northwest 137th Avenue, Miami, Dade County, Florida 33265-0679. The regulations do not require a Best Available Control Technology (BACT) or Lowest Achievable Emission Rate (LAER) determination for this modification. The modified dryer may emit 1 lb/hr (avg.) and 4.4 TPD particulate matter, 0.13 lb/hr and 0.57 TPD lead, 5.6 lbs/hr and 24.0 TPD VOC, 17.2 lbs/hr and 40.2 TPD SO<sub>2</sub>, 6.3 lbs/hr and 27.8 TPD NO<sub>x</sub>, and 2.1 lbs/hr and 9.2 TPD CO. These emissions will not cause a violation of any ambient air quality standard or Prevention of Significant Deterioration (PSD) increment. The Department is issuing this intent to issue for the reasons stated in the Technical Evaluation and Preliminary Determination.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within 14 days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative proceeding under Section 120.57, Florida Statutes. The petition shall contain the following information:

- (a) The name, address, and telephone number of each petitioner; the applicant's name and address; the Department Permit File Number, and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by petitioner, if any;
- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5, F.A.C.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Department of Environmental Regulation  
Bureau of Air Regulation  
2600 Blair Stone Road
