RE: RACT for NOx - Rinker Materials Corporation

Dear Mr. Reynolds:

This letter serves to confirm our discussion of October 7, 1993 at your office relative to Rinker Materials status in our NOx evaluations.

We have begun contracting for the engineering analysis required. No firm schedule for completion of these evaluations has been received as yet. Due to the confidential nature of these choices, I will continue to keep you informed verbally as agreed. It is anticipated these studies will not take significantly longer than six months to complete.

Very truly yours,

Michael D. Vardeman
Cement Division Environmental Manager
