Subject: FW: Rinker Clinker data

RinkerClinker.xls

Since you said you did not receive my message, I am sending the message I received from Lee Martin.

Thanks.

> Attached is the spreadsheet of historic data I developed from the past
> "Treated Soil Reports" submitted during quarterly inspections as
> requested.

> Look for the tab at the bottom of the spreadsheet labeled "AllParameters"
> for the individual sampling events. Some of the parameters like Be, Cn,
> Phenols, etc were only required when they were processing coal tar
> contaminated soils which was for a limited period of time and most were
> BDL

> so I didn't fill in those cells. My focus was on those metals we had
> plenty of data on and for which some standards/criteria was available. If
> you have any questions please give me a call or email.
