Re: Extension Request/DEP File No. 0250281-007-AC (PSD-FL-248A)

Dear Mr. Rodriguez:

The Department reviewed your request of December 6, 2002 to extend the expiration date of the construction permit from June 30, 2003 to June 23, 2004.

Per Rule 62-4.080(3), F.A.C., an extension for a construction permit shall be granted if the applicant can demonstrate reasonable assurances that upon completion, the extended permit will comply with the standards and conditions required by applicable regulation.

We already have fairly extensive information about the facility and the control equipment. To complete the reasonable assurance requirement allowing extension of the permit, please submit the following information:

1. List any additional tasks to be performed to achieve "normal operating conditions" and the approximate dates for completing those tasks.
2. Identify additional production and emission testing that needs to be conducted and provide estimated dates for completion of those tasks.
3. Provide a statement (and basis for believing) that the facility will comply with applicable regulation.

According to Rule 62-4-080(3), the permit will remain in effect until the Department takes final action. Permit applicants are advised that Rule 62-4.055(1), F.A.C. now requires applicants to respond to requests for information within 90 days. If you have any questions regarding this matter, please call Syed Arif, P.E. at 850/921-9528.

Sincerely,

A. A. Linero, P.E. Administrator
