Re: Extension Request/DEP File No. 0250476-004-AC  
Central District Wastewater Treatment Plant

Dear Mr. Arrebola:

The Department reviewed your request of June 6, 2006 to extend the expiration date of the construction permit from December 31, 2006 to December 31, 2007.

Per Rule 62-4.080(3), F.A.C., an extension for a construction permit shall be granted if the applicant can demonstrate reasonable assurances that upon completion, the extended permit will comply with the standards and conditions required by applicable regulation.

We already have fairly extensive information about this facility and its operation. To complete the reasonable assurance requirement allowing extension of the permit, please submit the following information:

1. Explain in detail the delay in the installation of the new 2.865 MW diesel generators. It is our understanding the engines were already purchased and on site, a fact confirmed during a visit to your facility by one of our staff.
2. List any additional tasks to be performed to achieve the replacement of the radiators in the existing three 2.5 MW diesel generators and the installation of the new 2.865 MW diesel generators.
3. Identify the approximate dates for completing those tasks.
4. Provide a statement (and basis for believing) that the facility will comply with the permitted emissions standards for NOx and visible emissions (i.e. vendor specifications).

According to Rule 62-4-080(3), the permit will remain in effect until the Department takes final action. Permit applicants are advised that Rule 62-4.055(1), F.A.C. now requires applicants to respond to requests for information within 90 days. If you have any questions regarding this matter, please call Teresa Heron at 850/921-9529.

Sincerely,

*For*
