**RE: PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT
PROOF OF PUBLICATION
DRAFT AIR PERMIT NO. 0250615-012-AC (PSD-FL-414)
MEDLEY LANDFILL
LANDFILL GAS TO ENERGY PROJECT**

Dear Mr. Koerner:

On behalf of Waste Management, Inc., Golder Associates is notifying the Florida Department of Environmental Protection (FDEP) that a Public Notice of Intent to Issue Air Permit No. 0250615-012-AC/PSD-FL-414 was published in the Miami Daily Business Review on July 25, 2011. Pursuant to Rule 62-110.106(5) and (9), F.A.C., the enclosed affidavit serves as proof of publication to the FDEP.

Should you have any questions regarding the enclosed public notice ad, please call the undersigned at (352) 336-5600.

Sincerely,

GOLDER ASSOCIATES INC.

MIAMI DAILY BUSINESS REVIEW

Published Daily except Saturday, Sunday and Legal Holidays Miami, Miami-Dade County, Florida

STATE OF FLORIDA COUNTY OF MIAMI-DADE:

Before the undersigned authority personally appeared MARIA MESA, who on oath says that he or she is the LEGAL CLERK, Legal Notices of the Miami Daily Business Review f/k/a Miami Review, a daily (except Saturday, Sunday and Legal Holidays) newspaper, published at Miami in Miami-Dade County, Florida; that the attached copy of advertisement, being a Legal Advertisement of Notice in the matter of

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT APPLICANT - WASTE MANAGEMENT, INC.

in the XXXX Court, was published in said newspaper in the issues of

07/25/2011

Affiant further says that the said Miami Daily Business Review is a newspaper published at Miami in said Miami-Dade County, Florida and that the said newspaper has heretofore been continuously published in said Miami-Dade County, Florida, each day (except Saturday, Sunday and Legal Holidays) and has been entered as second class mail matter at the post office in Miami in said Miami-Dade County, Florida, for a period of one year next preceding the first publication of the attached copy of advertisement; and affiant further says that he or she has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in the said newspaper.

Sworn to and subscribed before me this 25 day of JULY, A.D. 2011. Maria MESA (SEAL) MARIA MESA personally known to me

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION DIVISION OF AIR RESOURCE MANAGEMENT, BUREAU OF AIR REGULATION

DRAFT AIR PERMIT NO. 0250615-012-AC/PSD-FL-414 WASTE MANAGEMENT, INC., MEDLEY LANDFILL MIAMI-DADE COUNTY, FLORIDA

Applicant: The applicant for this project is Waste Management, Inc. The applicant's authorized representative and mailing address is: Tim Hawkins, South Florida Market Area Vice President, Waste Management, Inc., Medley Landfill, 2700 Northwest 48th Street, Pompano Beach, FL 33073.

Facility Location: Waste Management, Inc. operates the existing Medley Landfill, which is located in Miami-Dade County at 9350 Northwest 89th Avenue in Medley, Florida.

Project: The Medley Landfill is an existing municipal solid waste landfill. The applicant proposes to construct and operate a landfill gas-to-energy plant at the existing Medley Landfill, which will use landfill gas to fuel six lean-burn reciprocating internal combustion engine/generator sets. The six engines will be capable of generating a combined nominal 9.6 megawatts (MW) of power to the electrical grid. The two existing flares will be retained and relocated adjacent to the engines as additional combustion devices for the landfill gas. The landfill gas will be routed through a landfill gas treatment system and then to the engines. As necessary, residual landfill gas will be routed to the flares. The project will result in the following potential emissions increases at the existing landfill: 455 tons/year of carbon monoxide (CO); 78 tons/year of nitrogen oxides (NOX); 31 tons/year of particulate matter (PM), particulate matter with a mean particle diameter of 10 microns or less (PM10) and particulate matter with a mean particle diameter of 2.5 microns or less (PM2.5); 39 tons/year of sulfur dioxide (SO2); and 37 tons/year of volatile organic compounds (VOC).

The proposed project is subject to preconstruction review pursuant to Rule 62-212.400, Florida Administrative Code (F.A.C.) for the Prevention of Significant Deterioration (PSD) of Air Quality for emissions of CO, NOX, PM and PM10. In accordance with this rule, the Department is required to make a determination of the Best Available Control Technology (BACT) for CO, NOx, PM and PM10 emissions. The draft permit includes the following preliminary BACT determinations: emissions of CO and NOx will be minimized by the lean-burn combustion design combined with good operating and maintenance practices; and emissions of PM/PM10 will be controlled by filtration in the landfill gas treatment system prior to combustion.

The Department reviewed the air quality analysis prepared by the applicant. The project has no predicted significant impact for any pollutants in the nearest PSD Class I area (Everglades National Park). Therefore, a multi-source modeling analysis for PSD Class I increment was not required. The Department reviewed a multi-source modeling analysis for PSD Class II increment because the project has predicted significant impacts for nitrogen dioxide (NO2) and PM10 in the Class II area in the vicinity of the project. The following table shows the maximum predicted PSD Class II increments consumed in micrograms per cubic meter (ug/m3) by all sources in the area, including this project, for NO2 and PM10.

Table with 5 columns: Pollutant, Averaging Time, Allowable Increment (ug/m3), Increment Consumed (ug/m3), Percent. Rows for NO2 and PM10 with Annual and 24-hour averaging times.

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212, F.A.C. The proposed project is not exempt from air permitting requirements and an air permit is required to perform the proposed work. The Florida Department of Environmental Protection's Bureau of Air Regulation is the Permitting Authority responsible for making a permit determination for this project. The Bureau of Air Regulation's physical address is 111 South Magnolia Drive, Suite 4, Tallahassee, Florida and the mailing address is 2600 Blair Stone Road, MS #5505, Tallahassee, Florida 32399-2400. The Bureau of Air Regulation's phone number is 850/717-9000.

BUREAU OF
AIR REGULATION

Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at address indicated above for the Permitting Authority. The complete project file includes the Draft Permit, the Technical Evaluation and Preliminary Determination, the application, and the information submitted by the applicant, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Permitting Authority's project review engineer for additional information at the address and phone number listed above. In addition, electronic copies of these documents are available on the following web site by entering draft permit number: <http://www.dep.state.fl.us/air/emission/apds/default.asp>.

Notice of Intent to Issue Air Permit: The Permitting Authority gives notice of its intent to issue an air permit to the applicant for the project described above. The applicant has provided reasonable assurance that operation of the proposed equipment will not adversely impact air quality and that the project will comply with all applicable provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a Final Permit in accordance with the conditions of the proposed Draft Permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

Comments: The Permitting Authority will accept written comments concerning the proposed Draft Permit and requests for a public meeting for a period of 30 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of this 30-day period. In addition, if a public meeting is requested within the 30-day comment period and conducted by the Permitting Authority, any oral and written comments received during the public meeting will also be considered by the Permitting Authority. If timely received comments result in a significant change to the Draft Permit, the Permitting Authority shall revise the Draft Permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection.

Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed with (received by) the Department's Agency Clerk in the Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of this Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the

presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Public Notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation: Mediation is not available in this proceeding.
