Mr. Joseph Miller
OANDM Manager
Desoto County Energy Complex/Southern Power
3800 NE Roan Street
Arcadia, Florida 34266

Re: DEP File Nos. 0270016-006-AC and 0270016-007-AV
Air Construction Permit Modification and Title V Renewal
Desoto County Generating Company, LLC.

Dear Mr. Miller:

On June 25, 2007 we received your application for a simultaneous processing of an air construction permit modification and renewal of the Title V operating permit for the Desoto County Generating Company, LLC.

Pursuant to Rules 62.296.340, 62-4.055, and 62-4.070 F.A.C., Permit Processing, the Department requests submittal of additional information prior to processing the application. Please submit the information requested below to the Department's Bureau of Air Regulation by September 15, 2007. The Department is requiring the information to be submitted by that date as the processing of this application is under time constraints. Should your response to any of the below items require new calculations, please submit the new calculations, assumptions, reference material and appropriate revised pages of the application form.

1. Please submit a complete acid rain part application form {DEP Form No. 62-210.900(1)(a)}. Additionally, provide a copy of the certificate of representation for the designated representative of the source.
2. Provide the latest annual compliance test results for both units.
3. In order for the Department to make a determination whether Specific Condition A.6 concerning fuel oil usage can be removed, submit historical fuel use (natural gas and fuel oil) for both the units for the last five years (2002-2006). The usage shall be in terms of annual rates in ft³ and

gallons for gas and oil, respectively. Also provide total heat input in Btu for gas and oil as well as operating hours for both fuels.

4. Provide cost effectiveness for NOx removal in \$/ton if a single unit can operate for 6,780 hours. This operation for one of the units would be possible if 5,000 hours per single year operational limitation is removed.
5. Please provide the necessary documentation (rule, calculations, etc.) to show that Emission Unit No. 004 is no longer subject to 40 CFR 60 Subpart Kb.

We will forward any comments received from other agencies as soon as we receive them. Rule 62-4.050(3), F.A.C. requires that all applications for a Department permit must be certified by a professional engineer registered in the State of Florida. This requirement also applies to responses to Department requests for additional information of an engineering nature.

We will be happy to meet and discuss the details with you and your staff. I may be contacted at 850/921-9528.

Sincerely,

Syed Arif, P.E.
North Permitting Section

Dear Sir/Madam:

Please send a "reply" message verifying receipt of the attached document(s); this may be done by selecting "Reply" on the menu bar of your e-mail software and then selecting "Send". We must receive verification of receipt and your reply will preclude subsequent e-mail transmissions to verify receipt of the document(s).

The document(s) may require immediate action within a specified time frame. Please open and review the document(s) as soon as possible.

The document is in Adobe Portable Document Format (pdf). Adobe Acrobat Reader can be downloaded for free at the following internet site:
<http://www.adobe.com/products/acrobat/readstep.html>.

The Bureau of Air Regulation is issuing electronic documents for permits, notices and other correspondence in lieu of hard copies through the United States Postal System, to provide greater service to the applicant and the engineering community. Please advise this office of any changes to your e-mail address or that of the Engineer-of-Record.

Thank you,

8/21/2007

Harvey, Mary
