SUBJECT: Amendment of Permit No. AC16-234532

Attached for your approval and signature is a letter modifying the above referenced construction permit.

As the attachment to the amendment details there were specific problems in executing the second stack test as required by specific condition 11 of the original permit. Jefferson Smurfit requested that we allow 90 days after the SNCR became operational to conduct the second stack test to determine compliance.

The Bureau recommends approval of this amendment.
